

Hikmat Insurance Plan

The Hospitalisation Dilemma

Today's fast paced commercial age has taken its toll on our lives. We find ourselves occupied almost all the time and the element that is most neglected is our health and well-being. Although knowing that every aspect of our lives has a direct relationship with our health, our tight schedules do not allow us the time for a self-evaluation.

It's only when we fall sick or face an unfortunate incident, when reality strikes and by that time it is too late. Keeping the suffering of sickness and accident aside, the impact of such an incident/accident on our daily lives and that of our dependents is tremendous. In such a situation, we find ourselves handicapped as we lose track of our day to day activities.

In case of severe illness/major accident, the hospital expenses are the additional burden that falls entirely on either our savings or on our dependents. In such a situation, the financial impact becomes two-fold: On one hand, Hospitalisation of the breadwinner stops the cash inflow to the household, while on the other hand the burden of the hospital expenses has to be managed. The situation becomes tricky and a cause of worry for the individual as well as for his/her dependents.

Hikmat Plan Offer

Keeping the above scenario in view, Adamjee Life offers a unique coverage plan intended to cover the hospital expenses due to Hospitalisation in case of sickness or accident. Under the Hikmat Insurance Plan, you can choose a daily allowance that will be compensated to you in case of your unfortunate Hospitalisation due to either accident or sickness. The benefit doubles in case of your confinement in 'Intensive Care Unit (ICU)'.
