Directors' Review

On behalf of the Board of Directors, we are pleased to present the unconsolidated condensed interim financial statements of Bank Alfalah Limited for the quarter ended March 31, 2019.

Economic Review

Banking sector continued to adapt to the changing landscape as country's economy furthered its quest for stability with concerns over balance of payment situation persisting in 1Q19. Following on from a currency devaluation of 26% and monetary tightening of 450bp in 2018, market witnessed further currency devaluation of 1.4% and tightening of 75bps in 1Q19.

Current Account Deficit (CAD) clocked in at US\$8.8bn in Jul-Feb FY19 as compared to US\$11.4bn in the same period of last year. As per SBP data, while exports remained flat around US\$16bn during 8MFY19, imports reported a marginal decline of 1.6% to US\$35.3bn. The key improvement came via 11.8% increase in overseas remittances to US\$14.3bn and a 36% reduction in net service payments. The CAD decline is more pronounced in recent readings of Feb where the current account deficit clocked at US\$358mn versus the monthly average of US\$1.2bn in Jul to Jan period. Despite this curtailment, the CAD still remains at high levels given low foreign exchange reserves and low Foreign Direct Investment (FDI). In order to meet the immediate external debt servicing requirements, the government has managed to secure financing from Saudi Arabia, UAE and China which has provided some cushion to ailing SBP's foreign exchange reserves.

The macroeconomic concerns have also translated into subdued stock market performance. The benchmark KSE100 Index recorded a gain of 10% in January 2019 but the momentum fizzled out as the index closed with just 4% return for 1019.

Other areas requiring government's administrative and policy actions are inflation (CPI clocked in at 9.41% YoY for March 2019; highest reading in the last five years) and the fiscal deficit. As per the data available, fiscal deficit in first half of FY19 was 2.7% of the GDP versus 2.2% in the same period of last year. One of the major reasons for this widening of deficit is the shortfall in revenue collection which depicted a 2.3% YoY drop during 1HFY19. More recent numbers also portray a shortfall in FBR's revenue collection which suggests that the fiscal deficit for this year will be a major challenge, especially considering the rising cost of debt servicing due to higher interest rates. Tax collection was also impacted by a slowdown in growth (LSM recorded a decline of 2.3% in 7MFY19), while IMF and World Bank project current fiscal year growth prospect for Pakistan at 3.6% and 2.9% respectively, compared to growth of 5.8% recorded in FY18. Slower economic growth, recent increase in ADR and crowding out could slow loan growth for the sector, till clarity emerges.

Going forward, monetary tightening while prima facie good for banking sector spreads, could carry implications for asset quality and limit potential for capital gains (on bond holdings) if the trend continues. Commencement of deferred oil payment facility from friendly countries should aid the government in addressing the immediate challenges of stabilising the economy. The next phase however requires attention towards long term reforms such as job creation, exports and remittances. Geo political events will also be crucial as material events take place in the neighborhood in the form of Indian elections and possible Afghan conflict resolution. The events combined with Pakistan's macroeconomic situation will most likely shape the next phase of CPEC.

Review of the Bank's Performance

The highlights of the financial results of the Bank for the quarter ended March 31, 2019 are presented as follows:

	March 31, 2019	December 31, 2018
Financial Position	Ru	upees in Millions
Shareholders' Equity	76,948	75,647
Total Deposits*	687,915	702,895
Total Assets	929,358	1,006,218
Advances – net*	465,417	501,636
Investments – net*	142,265	277,660

^{*}These prior year figures do not include one overseas set up held for sale whereas current year figures include the same as it has been declassified in 2019.

	Quarter ended March 31, 2019	Quarter ended March 31, 2018
Financial Performance		(Restated) Rupees in Millions
Net Interest Income and Non-markup Income	13,450	10,364
Non-markup Expenses	6,870	5,889
Provisions and write offs (net)	446	(600)
Profit before Tax	6,134	5,075
Profit after Tax	3,122	3,264
Basic Earnings per Share – Rupees	1.76	1.85
Diluted Earnings per Share - Rupees	1.76	1.84

The Bank's profit before taxation for the quarter ended March 31, 2019 was recorded at Rs. 6.134 billion, as against Rs. 5.075 billion for the corresponding period last year, indicating an impressive growth of 21%. The Bank's profit after taxation stood at Rs. 3.122 billion due to higher taxation as a result of Super Tax charge for 2017 levied through the mini budget. The Earning Per Share (EPS) was recorded at Rs. 1.76 (Mar 2018: Rs. 1.85).

The Bank has strongly positioned itself in this rising interest rate environment. Total revenue for the quarter ended was reported at Rs. 13.450 billion compared to Rs. 10.364 billion from the corresponding period last year, improving by 30%. The growth in revenue was led primarily by higher spreads in line with policy rate increases as well as higher average volumes. Gain realised on government securities last year and bearish stock market sentiments during the first quarter of 2019 being the reason behind variance in non-fund based income. Fee and commission income stood 11% higher than same period last year. The growth was primarily driven by income from alternate delivery channels, branchless banking, credit and debit card fees and trade commissions.

Administrative expenses have increased by 16% against the previous reporting period. Main factors behind this are deposit protection insurance which is a new levy, customer promotion costs to tap unbanked segment, overall impact on cost due to inflationary adjustments and PKR devaluation. The cost to income ratio of the Bank however has improved to 50% from 56% for the same period last year.

A net provision charge of Rs. 446.076 million was taken in the first quarter 2019, primarily against advances and equity investment, versus a net provision reversal of Rs. 599.998 million in same period corresponding year. Last year reversal included a provision of Rs. 443.898 million relating to settlement of a case in Afghanistan. The Bank has managed to adequately cover its non-performing advances of Rs. 18.703 billion. While our absolute NPL has decreased, the NPL ratio stood at 3.9%, marginally higher than December end due to decrease in the advances portfolio. This continues to remain one of the lowest infection ratio in the industry. As at March 2019, the Bank's provision charge coverage stands at 86.69%.

The Bank's focus remains on re-profiling its deposit base. Total deposits at the period end have been reported at Rs. 687.915 billion, lower than December 2018 level, which is a customary decline in quarter one, however, current account balances remained flat. The Bank's CASA mix improved to 79% as at March 31, 2019.

The Bank's gross advances were reported at Rs. 482.483 billion. The Bank's strategy is to acquire high quality credit while maintaining an efficient risk weighted assets (RWA) profile. At the quarter end, our gross advances to deposits ratio stands at 70.1%, and remains a leading indicator for the Bank in the industry.

The shareholder equity of the Bank improved marginally despite payment of dividend approved by the shareholder in the AGM held in March 2019. At close of first quarter, the Bank remains adequately capitalised with CAR at 16.18%.

Assets held for sale

During 2018, the Bank had signed a business transfer agreement with the potential buyer for sale of the Afghanistan operations and subsequently an application for approval of the transaction was made to the DA Afghanistan Bank (DAB), the central bank in Afghanistan. Accordingly, the aforesaid business was classified as 'Asset held for sale'. However, during the current period, the DAB declined the application for approval and consequently Afghanistan operations are now classified as continuing.

Resultantly, all assets and liabilities of the Bank's Afghanistan operations have been presented as part of the actual balance sheet line items, rather than presented separately as 'Assets held for sale' while the balances at December end are still under 'held for sale' category as per the prospective treatment required under IFRS. However, all the income and expenses for the Bank's Afghanistan operations previously presented as a separate line item 'profit after taxation from discontinuing operations' have been reclassified and presented as part of the actual profit and loss line items for all prior periods presented. The details have been given in note 22 to the unconsolidated condensed interim financial statements.

Credit Rating

The Bank has been assigned an Entity Rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term by PACRA, with outlook assigned as 'Stable'. The unsecured subordinated debt (Term Finance Certificates) of the Bank has been awarded a credit rating of 'AA' (Double A), with Outlook assigned as 'Stable'.

Furthermore, JCR-VIS Credit Rating Company Limited (JCR-VIS) also assigned an entity rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term to the Bank, with outlook assigned as 'Stable'. The unsecured Tier 1 Capital (Term Finance Certificate) of the Bank has been awarded a credit rating of 'AA-' (Double A Minus), with 'Stable' Outlook.

The assigned ratings reflect the Bank's diversified operations, healthy financial risk profile, strong sponsors and existing market presence. These ratings denote a very low expectation of credit risk, a strong capacity for timely payment of financial commitments in the long term and the highest capacity for timely repayment in the short term, respectively.

Future Outlook

Bank Alfalah is well positioned for sustainable growth and building long-term shareholder value. We will continue to invest in Digital Banking, in our technology infrastructure, in human capital and in strengthening our compliance and controls environment. At the same time, we will continue to focus on building a low cost deposit base, improving the return on capital on risk assets, optimising returns from the banking book and enforcing a strong cost discipline across the Bank. Given the significant rise in interest rates over the last year and the risk of credit headwinds, we will continue to follow prudent risk management practices and manage the loan book optimally.

Acknowledgment

On behalf of the Board, we thank the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan, the Ministry of Finance and other regulatory authorities for their continued guidance and support. We would also like to express our gratitude to our shareholders, customers, employees and business partners for their patronage.

گزشته رپورٹنگ کی مدت کے مقابل انتظامی اخراجات میں 16 اضافه ہوا۔ اس کے اہم عوامل میں ڈپازٹ پروٹیکشن انشورنس ہے جو نیا محصول ہے۔ غیر بینکنگ سیگمنٹ کو استعمال میں لانے کی غرض سے آنے والی کسٹمر پروموشن لاگت، افراطِ زر کی ایڈجسٹمنٹ اور روپے کی قدر میں کمی شامل ہے۔ بینک کا کوسٹ ٹو انکم ریشو،56% سے 50% کمی کے ساتھ گزشته سال کی اسی مدت کے مقابلے میں بہتر رہا۔

قرضه جات اور ایکویٹی سرمایه کاری کے عوض 2019ء کی پہلی سه ماہی کیلنے خالص پرویژن لاگنت446.076 ملین روپے رہی جبکه گزشته سال اسی مدت میں خالص پرویژن لاگت کا رپورسل998.999 ملین روپے تھا۔ گزشته سال آنے والے رپورسل میں جبکه گزشته سال اسی مدت میں خالص پرویژن لاگت کا پرویژن شامل تھا۔ بینک نے اپنے18.703 بلین روپے کے نان پرفارمنگ قرضه جات کو پوری طرح کور کیا ہے۔ اگرچه ہمارا NPL کم ہوا۔ اس سال NPL، %9.5کی سطح پر رہا جو که قرضه جات میں آنے والی کمی کی وجه سے دسمبر کے اختتام سے معمولی طور پر زیادہ ہے۔ یه اس انڈسٹری میں سب سے کم انقیکشن تناسب کے طور پر برقرار رہا۔ مارچ2019ء میں بینک پرویژن لاگت کی کوریج %86.69 تھی۔

بینک کی توجه جمع شدہ، رقوم کی ری پروفانلینگ پر مرکوز رہی۔ اس سه ماہی کے اختتام پر کل جمع شدہ رقوم 687.915 بلین روپے رہی جو که معمول کے رجحان کے مطابق دسمبر2018ء سے کم تھی۔ مگر کرنٹ اکائونٹ اپنی موجودہ سطح پر برقرار رہا۔ بینک CASA مکس میں پہلی سه ماہی 31 مارچ2019کے اختتام پر 79سے بہتری آئی۔

بینک کے مجموعی قرضہجات482.483 بلین روپے رہے. بینک کی اسٹریٹجی میں اعلیٰ معیاری قرضوں کی فراہمی کے ساتھ ساتھ رسک ویٹڈ ایسٹ(RWA) پروفائل کو برقرار رکھنا ہے. پہلی سہ ماہی پر بینک کے مجموعی قرضہ جات اور جمع شدہ رقوم کا تناسب70.1% پر رہا جو بینکنگ انڈسٹری میں بینک کیلنے خاص اہمیت کا حامل ہے۔

مارچ2019ء میں ہونے والیAGM میں منظور کردہ ڈیویڈنڈ کی ادائیگی کے باوجود بینک کے شینر ہولڈرز کی ایکویٹی میں بتدریج بہتری آئی. پہلی سہ ماہی کے اختتام پر CARکا تناسب%16.18 کی مستحکم سطح پر رہا۔

فروخت كيلئے پيش كرده اثاثے

سال 2018ء کے دوران بینک نے افغانستان آپریشن کی فروخت کیلنے موزوں خریدار سے بزنس ٹرانسفر معاہدہ کیا اور فروخت کی منظوری کے عمل کی تکمیل کیلئے ڈی اے افغانستان بینک (DAB)کو درخواست دی گئی جو افغانستان کا مرکزی بینک ہے۔ بیان کردہ بزنس کو اثاثه جات برانے فروخت کے طور پر پیش کیا گیا۔ مگر موجودہ سال کے دوران DAB کے درخواست کو مسترد کرنے کی وجه سے افغانستان آپریشن کو جاری آپریشن کے طور پر پیش کیا گیا ہے۔

مذکورہ بالا کے نتیجے میں بینک کے افغانستان آپریشن کے تمام اثاثے اور واجبات کو علیحدہ اثاثے برائے فروخت میں رکھنے کی بجانے بیلنس شیٹ کے لائن آنٹمز میں شامل کر کے پیش کیا گیا ہے۔ جبکہ دسمبر کے اختتام کے بیلنس کو اب بھی اثاثے برائے فروخت، جو کہ IFRS کے مطابق ہیں، میں رکھا گیا ہے۔ تاہم، تمام آمدنی اور اخراجات برائے افغانستان آپریشنز جو کہ گزشتہ مدت میں الگ سے منافع بعد از ٹیکس برائے منتطع آپریشنز کے طور پر رکھا تھا، کو اس بار اصل آمدنی اور اخراجات کے لائن آنٹم میں شامل کیا گیا ہے۔ اس کی تفصیلات نوٹ نمبر 22 غیر انضباطی شدہ عبوری گوشوارے میں موجود ہیں۔

مستقبل میں مالیاتی بندشیں بظاہر بینکنگ سیکٹر منافع کیلئے اچھی نوید ہیں تاہم، اگر صورتحال اسی نہج پر رہی تو اثاثوں کے معیار اور بانٹز کی فروخت کے منافع پر اثراانداز ہوسکتی ہیں۔ دوست ممالک کی جانب سے تیل در آمد کی تاخیری ادائیگی سے معاشی ترقی کے چیلنج کو پورا کرنے کے مواقع دستیاب ہوں گے ۔ بہرحال اگلے مرحلے میں طویل مدتی اصلاحات جیسے نوکریوں کے مواقع میں اضافه، بر آمدات اور ترسیلات کے شعبوں میں توجه دینے کی ضرورت ہے ۔ جیو پولیٹیکل اہم واقعات جیسے بھارتی الیکشن اور افغان تنازعے کا حل بھی اہمیت کا حامل ہیں۔ یہ واقعات اور پاکستان کے مائیکرو اکنامک صورتحال CPEC کے اگلے مرحلے کو واضح کریں گے۔

ڈائریکٹرزکاجائزہ

ہم بورڈ آف ڈائریکٹرز کی جانب سے بخوشی غیر انضمام شدہ عبوری گوشوارہ31 مارچ 2019ء کو ختم ہونے والی سه ماہی کیلنے بینک الفلاح لمیٹڈ کے مالیاتی بیانات پیش کر رہے ہیں ۔

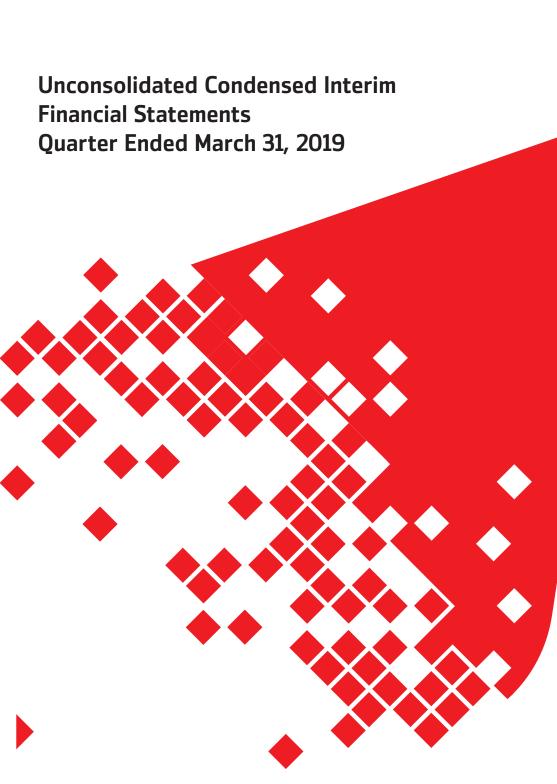

معيشت كا جائزه

بینکنگ سیکٹر تواتر سے ملکی معاشی صورتحال کو اپنانے کیلنے کوشاں ہے۔ جس میں 2019ء کی پہلی سه ماہی کے دوران ادانیگی کے توازن کے خدشات شامل ہیں۔ 2018 کے دوران روپے کی قدر میں %26 کی کمی ہوئی اور مالیاتی پالیسی کی سختی کے باعث 450bps کااضافہ ہوا۔ 2019ء کی پہلی سه ماہی میں روپے کی قدر میں مزید %1.4 کی کمی ہوئی اور مالیاتی پالیسی کی سختی کے باعث55bps کامزید اضافہ ہوا۔

کرنٹ آکائونٹ خسارہ جولائی تا فروری 2019ء میں 8.8 بلین امریکی ڈالر رہا جو اسی مدت میں گزشتہ سال 11.4 بلین امریکی ڈالر پر تھا۔ اسٹیٹ بینک آف پاکستان کے اعداوشمار کے مطابق آٹھ ماہی مالی سال 2019ء کے دوران بر آمدات 16 بلین امریکی ڈالر پر رہیں جبکہ در آمدات 16 بلین امریکی ڈالر پر رہیں جبکہ در آمدات 16.کی معمولی کمی کے باعث 5.33 بلین امریکی ڈالر رہیں غیر ملکی ترسیلات میں بہتری دیکھنے میں آئی جس میں 11.8% اضافہ ہوکر 14.3 بلین ڈالر رہیں اور 36% کی کمی ادائیگی کے توازن میں دیکھی گئی۔ کرنٹ آکائونٹ خسارے کی مزید کمی حالیہ اعدادوشمار فروری کے مطابق 358 ملین امریکی ڈالرپر رک گئی جو بالمقابل جولائی تا جنوری کے دورانیے میں اوسطاً ماہانہ 1.2 بلین ڈالر تھی ۔ اس تخفیف کے باوجود کرنٹ آکائونٹ خسارہ بلند سطح پر رہا جسکی وجہ زرِمبادلہ کے ذخائر کی کمی اور کم بیرونی سرمایہ کاری رہی۔ بیرونی قرضوں کی ادائیگی کی فوری ضروریات کو پورا کرنے کیلئے گورنمنٹ نے سعودی عرب، متحدہ عرب امارات اور چین سے قرضہ حاصل کیا جس سے اسٹیٹ بینک آف پاکستان کے زرمبادلہ کے ذخائر کو کچھ سہارا ملا۔

میکرو اکنامکس کے خدشات بھی اسٹاک مارکیٹ کی کارکردگی پر چھائے رہے. بینچ مارک KSE 100 انڈیکس جنوری 2019 میں 10%کااضافہ ہوا مگر یہ تیزی 2019 کی پہلی سہ ماہی میں صرف 40 ریٹرن کے بعد بند ہوئی. حکومت کے دوسرے انتظامی اور پالیسی اقدامات کے شعبوں میں افراط زر (جوکہ 9.4%سال به سال مارچ 2019، میں رہا جوکہ گزشتہ پانچ سالوں کی بلند سطح پر ہے) اور تجارتی خسارہ شامل ہیں ۔ دستیاب اعدادوشمار کے مطابق، مالیاتی خسارہ پہلے ششماہی سال 2019، میں GDP کا 2.7% رہا جو اسی مدت میں گزشتہ سال 2.2% پر تھا۔

تجارتی خسارے میں واضح کمی کی وجوہات میں سے ایک اہم وجہ آمدنی کے حصول میں کمی ہے جس میں 20.3کی کمی پہلے ششماہی سال 2019 میں دیکھی گئی۔ حالیہ اعدادوشمار اس بات کو ظاہر کرتے ہیں کہ ایف ہی آر کے ریونیو کے حصول میں کمی کے باعث مالیاتی خسارہ اس مالی سال میں ایک بڑا چیلنج ہوگا .بالخصوص شرح سود کے اضافے کی وجہ سے سودی قرضوں میں اضافہ بھی اس بات کو ظاہر کرتا ہے. معاشی ترقی میں کمی کی وجہ سے بھی ٹیکس کے حصول میں کمی دیکھی گئی (SMLمیں 23% کے دی کہ کمی کی وجہ سے بھی ٹیکس کے حصول میں کمی دیکھی گئی (PML میں 29% کی دیکھی گئی (29% کی سطح بالک کی دیکھ رہے ہیں جو کہ بالترتیب 2018ء کے مالی سال میں 5.8 پر تھی۔ معاشی ترقی کی تنزلی، حالیہ ADR میں اضافہ کی وجہ سے معاشی صورتحال صحیح طور پر واضح نہ ہونے تک قرضوں کے حصول میں کمی دیکھی جاسکتی ہے۔

Notes to and Forming Part of the Unconsolidated Condensed Interim Financial Statements (Un-audited)

For the guarter ended March 31, 2019

1 STATUS AND NATURE OF BUSINESS

Bank Alfalah Limited (the Bank) is a banking company incorporated in Pakistan on June 21, 1992 as a public limited company. It commenced its banking operations on November 1, 1992. The Bank's registered office is located at B. A. Building, I. I. Chundrigar Road, Karachi and its shares are listed on the Pakistan Stock Exchange. The Bank is engaged in banking services as described in the Banking Companies Ordinance, 1962 and is operating through 486 conventional banking branches including 24 sub branches (December 31, 2018: 486 branches including 24 sub branches), 10 overseas branches (December 31, 2018: 10 branches), 152 Islamic banking branches including 1 sub branch (December 31, 2018: 152 branches including 1 sub branch) and 1 offshore banking unit (December 31, 2018: 1 unit).

2 BASIS OF PRESENTATION

2.1.1 STATEMENT OF COMPLIANCE

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB) and notified under Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act. 2017:
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars. The State Bank of Pakistan through BPRD circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their S.R.O 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS).

SECP vide S.R.O 229 (I)/2019 dated February 14, 2019, has deferred the applicability of IFRS 9 'Financial Instrument' for the Bank. Further, the Bank considers that as the Prudential Regulations and other SBP directives currently provide the accounting framework for the measurement and valuation of investments and provision against non performing loans and advances, the implementation of IFRS 9 may require changes in the regulatory regime. Therefore, the Bank expects that the SBP would issue suitable guidance and instruction on the application of IFRS 9 for the banking sector of Pakistan.

Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements.

- 2.1.2 These unconsolidated condensed interim financial statements represent separate financial statements of Bank Alfalah Limited in which investment in subsidiaries and associates are accounted for on the basis of direct equity interest rather than on the basis of reported results.
- 2.1.3 Key financial figures of the Islamic Banking branches are disclosed in note 41 to these unconsolidated condensed interim
- 2.2 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current period

There are certain new and amended standards, interpretations and amendments that are mandatory for the Bank's accounting

IFRS 17 – Insurance Contracts	January 01, 2021

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except for certain fixed assets and non banking assets acquired in satisfaction of claims are stated at revalued amounts; held for trading, available for sale investments and derivative financial instruments are measured at fair value and defined benefit obligations are carried at present value.

3.2 Functional and Presentation Currency

These unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.

The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the financial statements of the Bank for the year ended December 31, 2018 except as disclosed below.

Changes in accounting policies

4.1 Change in reporting format

The SBP vide BPRD Circular Letter No.5 dated March 22, 2019 specified the new reporting format for the quarterly and half yearly financial statements of banking companies. The new format has revised the disclosure requirements of the Bank for the quarter ended March 31, 2019 which has resulted in certain additional disclosures and reclassifications of the items in these unconsolidated condensed interim financial statements.

4.2 Adoption of IFRS 16 - 'Leases'

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model.During the current year, the Bank has adopted IFRS 16 as issued by the International Accounting Standards Board (IASB) in January 2016.

Lessor accounting under IFRS 16 is substantially unchanged under IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Bank is the lessor. The Bank adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application.

Under the modified retropective method the lessees are required to initially recognise a lease liability for the obligation to make lease payments and a right-of-use (RoU) asset for the right to use the underlying asset for the lease term against a consideration. The lease liability is measured at the present value of the consideration (lease payments) to be made over the lease term. The lease payments are discounted using the interest rate implicit in the lease, unless it is not readily determinable, in which case the lessee may use the incremental rate of borrowing. The right-of-use asset is initially measured at the present value of lease liability, adjusted for lease prepayments and borrowing costs. Under IAS 17, leased assets, under operating lease mode, were not recognised on bank's balance sheets and only required lessees to recognise a periodic lease expense (rent) on a straight-line basis over the term for leases tenure and relevant lease commitments were disclosed

The adoption of this standard by the Bank has resulted in additional assets and liabilities amounting to Rs. 8,862.546 million and Rs. 8,635.350 million respectively. Had this standard not been applied, the rent expense would have been higher by Rs. 492.527 million and depreciation charge and mark-up expense would have been lower by Rs. 429.085 million and Rs. 388.023 million respectively.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of this condensed interim unconsolidated financial information is the same as that applied in the preparation of the unconsolidated financial statements for the year ended December 31, 2018.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the unconsolidated financial statements for the year ended December 31, 2018.

22 ASSETS HELD FOR SALE

- 22.1 The Bank signed a business transfer agreement with the potential buyer for sale of the Afghanistan operations in 2018 and subsequently an application for approval of the transaction was made to the DA Afghanistan Bank (DAB), the central bank in Afghanistan. Accordingly, the aforesaid business was classified as "Asset held for sale". However, during the current period, the DAB vide its letter dated 27 February 2019 declined the application for approval. Consequently, the plan for the disposal has been withdrawn. Inline with the requirements of IFRS 5 ' Non-current assets held for sale and Discontinued Operations' the results of the Afghanistan operations previously presented in discontinued operations have been reclassified and included in income from continuing operations for all periods presented and the amounts presented for 'assets and liabilities held for sale' in the comparative statement of financial position have not been reclassified or re-presented.
- 22.2 The financial position of assets classified as held for sale are as follows:

23.3 Other contingent liabilities

23.3.1 Claims against the Bank not acknowledged as debts

9,954,442 13,222,064

These mainly represents counter claims filed by the borrowers for restricting the Bank from disposal of assets (such as hypothecated / mortgaged / pledged assets kept as security), damage to reputation and cases filed by Ex. employees of the Bank for damages sustained by them consequent to the termination from the Bank's employment. Based on legal advice and / or internal assessment, management is confident that the matters will be decided in Bank's favour and the possibility of any outcome against the Bank is remote and accordingly no provision has been made in these financial statements.

23.4 Contingency for tax payable

23.4.1 There were no tax related contingencies other than as disclosed in note 34.2.

24 DERIVATIVE INSTRUMENTS

Hedging

Derivatives are a type of financial contract, the value of which is determined by reference to one or more underlying assets or indices. The major categories of such contracts include futures, swaps and options. Derivatives also include structured financial products that have one or more characteristics of forwards, futures, swaps and options.

31 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Honourable Supreme Court.

The Honourable Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Honourable Supreme Court of Pakistan.

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

34.1 The Finance Act, 2018 had revised the applicability of super tax brought into effect through Finance Act, 2015 for rehabilitation of temporary displaced persons for Tax Years 2019, 2020 and 2021 at the rates of 4%, 3% and 2% respectively on the taxable income for respective years. However, Finance Supplementary (Second Amendment) Act, 2019 has levied super tax @ 4% on taxable income for the Tax Year 2018 (Accounting year 2017) retrospectively and same rate of 4% revised up to Tax Year 2021. Accordingly, in addition to the current tax charge of super tax, provision amounting to Rs.603 million also made for Tax Year 2018 (Accounting Year 2017) in these unconsolidated condensed interim financial statements.

- 34.2 a) The income tax assessments of the Bank have been finalized upto and including tax year 2018. Matters of disagreement exist between the Bank and tax authorities for various assessment years and are pending with the Commissioner of Inland Revenue (Appeals), Appellate Tribunal Inland Revenue (ATIR), High Court of Sindh and Supreme Court of Pakistan. These issues mainly relate to addition of mark up in suspense to income, taxability of profit on government securities, bad debts written off and disallowances relating to profit and loss expenses.
 - In respect of tax years 2008, 2014, 2017 and 2018, the tax authorities have raised certain issues including default in payment of WWF, allocation of expenses to dividend and capital gains, dividend income from mutual funds not being taken under income from business, disallowance of Leasehold improvements and provision against other assets resulting in additional demand of Rs.789.862 million (December 31, 2018: Rs.789.862 million). As a result of appeal filed before Commissioner Appeals against these issues, relief has been provided for tax amount of Rs.116.351 million appeal effect orders are pending. Bank has filed appeals on these issues which are pending before Commissioner Appeals. The management is confident that these matters will be decided in favour of the Bank and consequently has not made any provision in respect of these amounts.
 - b) In respect of monitoring of withholding taxes, the Bank has received order from tax authorities. The Bank has not made provision amounting to Rs.24.920 million against tax demand for tax year 2019 as management is of the view that the matter will be settled in Bank's favour in appeals.
 - c) The Bank has received an order from a provincial tax authority wherein tax authority has disallowed certain exemptions of sales tax on banking services and demanded sales tax and penalty amounting to Rs.77.592 million (December 31, 2018 : Rs.77.592 million) (excluding default surcharge) for the period from July 2011 to June 2014. Bank's appeal against this order is currently pending before Commissioner Appeals. The Bank has not made any provision against this order and the management is of the view that the matter will be settled in Bank's favour through appellate process.

37 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

37.1 Fair value of financial instruments

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 37.2 Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of State Bank of Pakistan.
- **37.3** The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the current period.

37.4 Valuation techniques used in determination of fair values:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

ltem	Valuation approach and input used
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan.
Interest rate swaps	The fair value of interest rate swaps and futures is determined using prices and curves through Bloomberg.
Market Treasury Bills(MTB) / Pakistan Investment Bonds(PIB), and GoP Sukuks (GIS)	The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates.
Overseas Government Sukuks, Overseas and Euro Bonds	The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg.
Debt Securities (TFCs) and Sukuk other than Government	Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Operating fixed assets and non banking assets acquired in satisfaction of claims	The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.

50 Bank Alfalah _____

41.9 Pls Pool Management- Islamic Banking Group (IBG)

41.9.1 The pools, their key features and risk and reward characteristics.

The profit and loss sharing between the Rabbul Maal (depositor) and Mudarib (Bank - IBG) is based upon the underlying principles of Mudaraba, where Bank also contributes its equity to general pool of funds, and becomes the capital provider.

Currently IBG is managing following pools:

- 1) General Pool for LCY Depositors
- 2) FCY Pool for Foreign Currency (USD, GBP and EURO) depositors
- 3) Fls Pool for Treasury Purposes
- 4) IERS Pool for Islamic Export Refinance Scheme facilities
- 5) Special pool

Total Invested Funds

6) Islamic Banking Afghanistan Operations Pool

All the Mudaraba based Remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBG's own share of equity, which is also commingled in the pool. The applications of these funds are on Advances, Investments, and Placements for generating profits to be shared among the depositors as per the Weightage system.

The IERS pool is maintained as per the guideline under SBP IERS Scheme.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

41.9.3 The major components of Profit distribution and charging of the expenses.

Profit is distributed among the Mudaraba deposits on the basis of underlying principles of weightage mechanism which are announced before the beginning of the concerned period. Only direct attributable expenses such as depreciation on ijarah assets, brokerage, CIB Charges, bad debts write off on advances and loss on sale of investments etc. are charged to the pool. Expenses of pool(s) do not include general and specific provisioning created against non-performing financings and diminution in the value

2 BASIS OF PRESENTATION

2.1 These consolidated condensed interim financial statements represent financial statements of Holding Company - Bank Alfalah Limited and its subsidiaries. The assets and liabilities of subsidiaries have been consolidated on a line-by-line basis and the investment held by the holding company is eliminated against the corresponding share capital of subsidiaries in these consolidated condensed interim financial statements.

2.2 STATEMENT OF COMPLIANCE

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB) and notified under Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Percentage of Holding

Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 41I(I)/2008 dated April 28, 2008. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars. The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their S.R.O 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS).

SECP vide S.R.O 229 (I)/2019 dated February 14, 2019, has deferred the applicability of IFRS 9 'Financial Instrument' for the Bank. Further, the Bank considers that as the Prudential Regulations and other SBP directives currently provide the accounting framework for the measurement and valuation of investments and provision against non performing loans and advances, the implementation of IFRS 9 may require changes in the regulatory regime. Therefore, the Group expects that the SBP would issue suitable guidance and instruction on the application of IFRS 9 for the banking sector of Pakistan.

Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated condensed interim financial statements.

2.3 Basis of consolidation

Subsidiaries are entities controlled by the Group. Control exists when the Group is exposed, or has rights, to variable returns from its investment with investee and has the ability to effect those return through its power over the investee.

These consolidated condensed interim financial statements incorporate the financial statements of subsidiaries from the date that control commences until the date that control ceases.

Associates are those entities on which the Group has significant influence, but not control, over the financial and operating polices. Associates as well as investment in mutual funds established under trust structure (not consolidated as subsidiaries) are accounted for using the equity method.

Non-controlling interests are that part of the net results of operations and of net assets of subsidiaries which are not owned by the Holding Company. Material intra-group balances and transactions are eliminated.

- 2.4 The Group has investment in mutual funds established under Trust structure, which are subsidiaries of the Group under IFRS 10, but have not been considered for the purposes of consolidation in accordance with the directives issued by the Securities and Exchange Commission of Pakistan (SECP) through S.R.O 56(I) /2016 dated January 28, 2016. The said SRO states that the requirements of consolidation under the Companies Act 2017 and IFRS 10 'Consolidated Financial Statements' is not applicable in case of investment by companies in mutual funds established under Trust structure. Accordingly, for the purposes of Consolidated Financial Statements of the Group, the investments in these funds have been accounted for as associates as explained in note 2.3 to these consolidated financial statements.
- 2.5 Key financial figures of the Islamic Banking branches are disclosed in note 41 to the unconsolidated condensed interim financial statements.
- 2.6 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current period

There are certain new and amended standards, interpretations and amendments that are mandatory for the Group's accounting periods beginning on or after January 1, 2019 but are considered not to be relevant or do not have any significant effect on the Group's operations and therefore not detailed in these consolidated condensed interim financial statements.

2.7 Standards, interpretations of and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for the accounting periods as stated below:

Standard, Interpretation or Amendment	Effective date (annual periods beginning on or after)
IFRS 3 - Definition of a Business (Amendments)	January 01, 2020
Definition of Material - Amendments to IAS 1 and IAS 8	January 01, 2020
The Conceptual Framework for Financial Reporting	January 01, 2020
IFRS 10 Consolidated Financial Statements and IAS 28 Investment	
in Associates and Joint Ventures - Sale or Contribution of Assets	
between an Investor and its Associate or Joint Venture (Amendment)	Not yet finalized

The above standards, amendments and interpretations are not expected to have any material impact on the Group's financial statements in the period of initial application.

Further, following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standard	periods beginning on or after)
IFRS 14 – Regulatory Deferral Accounts	January 01, 2016
IFRS 17 – Insurance Contracts	January 01, 2021

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These consolidated condensed interim financial statements have been prepared under the historical cost convention except for certain fixed assets and non banking assets acquired in satisfaction of claims are stated at revalued amounts; held for trading, available for sale investments and derivative financial instruments are measured at fair value and defined benefit obligations are carried at present value.

3.2 Functional and Presentation Currency

These consolidated financial statements are presented in Pakistani Rupees, which is the Group's functional and presentation currency.

The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the financial statements of the Group for the year ended December 31, 2018 except as disclosed below.

IASB Effective date (annual

Changes in accounting policies

4.1 Change in reporting format

The SBP vide BPRD Circular Letter No.5 dated March 22, 2019 specified the new reporting format for the quarterly and half yearly financial statements of banking companies. The new format has revised the disclosure requirements of the Group for the quarter ended March 31, 2019 which has resulted in certain additional disclosures and reclassifications of the items in these consolidated condensed interim financial statements.

4.2 Adoption of IFRS 16 - 'Leases'

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model. During the current year, the Group has adopted IFRS 16 as issued by the International Accounting Standards Board (IASB) in January 2016.

Lessor accounting under IFRS 16 is substantially unchanged under IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Bank is the lessor. The Bank adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application.

Under the modified retrospective method the lessees are required to initially recognise a lease liability for the obligation to make lease payments and a right-of-use (RoU) asset for the right to use the underlying asset for the lease term against a consideration. The lease liability is measured at the present value of the consideration (lease payments) to be made over the lease term. The lease payments are discounted using the interest rate implicit in the lease, unless it is not readily determinable, in which case the lessee may use the incremental rate of borrowing. The right-of-use asset is initially measured at the present value of lease liability, adjusted for lease prepayments and borrowing costs. Under IAS 17, leased assets, under operating lease mode, were not recognised on bank's balance sheets and only required lessees to recognise a periodic lease expense (rent) on a straight-line basis over the term for leases tenure and relevant lease commitments were disclosed.

The adoption of this standard by the Bank has resulted in additional assets and liabilities amounting to Rs. 8,862.546 million and Rs. 8,635.350 million respectively. Had this standard not been applied, the rent expense would have been higher by Rs.492.527 million and depreciation charge and mark-up expense would have been lower by Rs. 429.085 million and Rs. 388.023 million respectively.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of this condensed interim consolidated financial information is the same as that applied in the preparation of the consolidated financial statements for the year ended December 31, 2018.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the consolidated financial statements for the year ended December 31, 2018.

22 ASSETS HELD FOR SALE

- 22.1 The Holding Company signed a business transfer agreement with the potential buyer for sale of the Afghanistan operations in 2018 and subsequently an application for approval of the transaction was made to the DA Afghanistan Bank (DAB), the central bank in Afghanistan. Accordingly, the aforesaid business was classified as "Asset held for sale". However, during the current period, the DAB vide its letter dated 27 February 2019 declined the application for approval. Consequently, the plan for the disposal has been withdrawn. Inline with the requirements of IFRS 5 ' Non-current assets held for sale and Discontinued Operations' the results of the Afghanistan operations previously presented in discontinued operations have been reclassified and included in income from continuing operations for all periods presented and the amounts presented for 'assets and liabilities held for sale' in the comparative statement of financial position have not been reclassified or represented.
- 22.2 The financial position of assets classified as held for sale are as follows:

23.3 Other contingent liabilities

23.3.1 Claims against the Bank not acknowledged as debts

9,954,442 13,222,064

These mainly represents counter claims filed by the borrowers for restricting the Bank from disposal of assets (such as hypothecated / mortgaged / pledged assets kept as security), damage to reputation and cases filed by Ex. employees of the Bank for damages sustained by them consequent to the termination from the Bank's employment. Based on legal advice and / or internal assessment, management is confident that the matters will be decided in Bank's favour and the possibility of any outcome against the Bank is remote and accordingly no provision has been made in these consolidated condensed interim financial statements.

23.4 Contingency for tax payable

23.4.1 There were no tax related contingencies other than as disclosed in note 34.2.

24 DERIVATIVE INSTRUMENTS

Derivatives are a type of financial contract, the value of which is determined by reference to one or more underlying assets or indices. The major categories of such contracts include futures, swaps and options. Derivatives also include structured financial products that have one or more characteristics of forwards, futures, swaps and options.

31 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Honourable Supreme Court.

The Honourable Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Honourable Supreme Court of Pakistan

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

34.1 The Finance Act, 2018 had revised the applicability of super tax brought into effect through Finance Act, 2015 for rehabilitation of temporary displaced persons for Tax Years 2019, 2020 and 2021 at the rates of 4%, 3% and 2% respectively on the taxable income for respective years. However, Finance Supplementary (Second Amendment) Act, 2019 has levied super tax @ 4% on taxable income for the Tax Year 2018 (Accounting year 2017) retrospectively and same rate of 4% revised up to Tax Year 2021. Accordingly, in addition to the current tax charge of super tax, provision amounting to Rs.603 million also made for Tax Year 2018 (Accounting Year 2017) in these consolidated condensed interim financial statements.

34.2 a) The income tax assessments of the Bank have been finalized upto and including tax year 2018. Matters of disagreement exist between the Holding Company and tax authorities for various assessment years and are pending with the Commissioner of Inland Revenue (Appeals), Appellate Tribunal Inland Revenue (ATIR), High Court of Sindh and Supreme Court of Pakistan. These issues mainly relate to addition of mark up in suspense to income, taxability of profit on government securities, bad debts written off and disallowances relating to profit and loss expenses.

In respect of tax years 2008, 2014, 2017 and 2018, the tax authorities have raised certain issues including default in payment of WWF, allocation of expenses to dividend and capital gains, dividend income from mutual funds not being taken under income from business, disallowance of Leasehold improvements and provision against other assets resulting in additional demand of Rs.789.862 million (December 31, 2018: Rs.789.862 million). As a result of appeal filed before Commissioner Appeals against these issues, relief has been provided for tax amount of Rs.116.351 million appeal effect orders are pending. Bank has filed appeals on these issues which are pending before Commissioner Appeals. The management is confident that these matters will be decided in favour of the Holding Company and consequently has not made any provision in respect of these amounts.

- b) In respect of monitoring of withholding taxes, the Holding Company has received order from tax authorities. The Holding Company has not made provision amounting to Rs.24.920 million against tax demand for tax year 2019 as management is of the view that the matter will be settled in Holding Company's favour in appeals.
- c) The Holding Company has received an order from a provincial tax authority wherein tax authority has disallowed certain exemptions of sales tax on banking services and demanded sales tax and penalty amounting to Rs.77.592 million (December 31, 2018 : Rs.77.592 million) (excluding default surcharge) for the period from July 2011 to June 2014. The Holding Company's appeal against this order is currently pending before Commissioner Appeals. The Holding Company has not made any provision against this order and the management is of the view that the matter will be settled in Holding Company's favour through appellate process.

37 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, may be term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

37.1 Fair value of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 37.2 Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values. The valuations are conducted by the valuation experts appointed by the Holding Company which are also on the panel of State Bank of Pakistan.
- **37.3** The Holding Company's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the current period.
- 37.4 Valuation techniques used in determination of fair values:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

ltem	Valuation approach and input used
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan.
Interest rate swaps	The fair value of interest rate swaps and futures is determined using prices and curves through Bloomberg.
Market Treasury Bills(MTB) / Pakistan Investment	The fair value of MTBs and PIBs are derived using PKRV rates. GIS
Bonds(PIB), and GoP Sukuks (GIS)	are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates.
Overseas Government Sukuks, Overseas and Euro Bonds	The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg.
Debt Securities (TFCs) and Sukuk other than Government	Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Operating fixed assets and non banking assets acquired in satisfaction of claims	The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these condensed interim consolidated financial statements.
