

# Bank Alfalah Limited

# Chairman's Message

I am pleased to see that Bank Alfalah has delivered a solid financial performance along with a satisfactory shareholders' returns despite navigating through a challenging year. The Board of Directors is pleased with the Bank's progress and confident its sound foundation will support it through changing tides.

I am very proud of the fact that our Bank was recognized as the 'Best Customer Franchise' for the third consecutive year along with the 'Best Bank for Small/Medium Businesses' at the Pakistan Banking Awards jointly organised by the Institute of Bankers, A. F. Ferguson & Company and Dawn Media Group in 2018. These awards are a testimony to our customer-centric focus, and outreach which drives us to constantly engage with them and deliver services that surpass expectations.

The Bank is optimistic about the economic prospects in 2019. We will continue to play our role in Pakistan's banking system. The new government inherited a platform with many challenges in the shape of twin deficits, losses in Public Sector Entities (PSE), infrastructure challenges and declining reserves. However, the new Government seems committed towards addressing the macroeconomic challenges, generating higher growth and employment opportunities. Pakistan is poised to recover with agriculture and industrial production gaining momentum. Looking ahead, boost to exports in the backdrop of global economic recovery and improvement in domestic investment climate, backed by various initiatives of the Government, supports favourable growth outlook. It is the time for the private sector of Pakistan to prove its credentials as an 'engine of growth' by committing capital in growth sectors to generate wealth, create jobs and sustain the economy.

Technology is reshaping the world faster than ever. The shifting customer preferences for digital products which has been a success story in the shape of various e-commerce setups has become an inspiration for the banks to revamp the traditional way of banking. The customers, demanding ease of doing transactions, is itself inducing a change in customer behaviour and making customers ask for more convenience from their bank. Many purely digital banks have been setup and performing well in different market. Further, the rapid growth of the more nimble Fintech players are forcing the banks to enter into partnership with them to improve service delivery and customer service. A Boston Consulting report says that smartphone users will equal bank accounts by 2020. This explains why banks and fintech companies are falling over one another to attract customers by sprucing up their digital banking facilities. It is the bank's core strategy to lead the digital wave and simplify banking for our customers by offering products, enabling secure payments through effective use of technology.

The Bank has a robust balance sheet with strong capital levels, sustainable earnings and inherent value across its businesses. The Bank has always demonstrated its ability to spot emerging opportunities and execute strategies to capture them. I am optimistic about the future, being confident in our ability to turn challenges to opportunities. The Bank is well-positioned to leverage all eventualities for profitable growth and value creation. It will continue its commitment to being a partner in Pakistan's growth and development.

# Chairman's Message

A key strength of the Bank is its depth of leadership talent, and the contribution and commitment of the employees. The management team under the leadership of the President is executing a focused strategy, leveraging existing strengths, and building new capabilities to stay ahead in the evolving environment. I deeply value and appreciate the commitment, dedication and hard work of the Bank's employees. It is their passion to do things passionately and their determination to act with integrity, which has made it possible for the Bank to live up to its values and deliver on the promise made to our stakeholders.

In line with our strategy of delivering superior results in a compliant manner while taking care of our People and our Customers, 2019 has been declared as the "Year of Happiness at Bank Alfalah". We realize that our workplace influences a large part of our lives, and as such we want to commit to making working at Bank Alfalah a truly memorable experience. We believe that by investing in and enriching the employee experience positively impacts both our productivity and our customer experience. This is the journey which we believe will help us stand out and become an employer of choice.

I would like to take this opportunity to thank all our external and internal stakeholders especially Securities and Exchange Commission of Pakistan and State Bank of Pakistan for supporting us through one of our most challenging periods last year. We remain focused in our priorities and will continue to build a trusted, compliant and financially strong Bank, which will remain at the forefront to find new ways to secure the financial future of our customers in this fast changing world of today.

HH SHEIKH NAHAYAN MABARAK AL NAHAYAN

Abu Dhabi

21st February 2019

## **Directors' Report to the Shareholders**

#### Dear shareholders,

On behalf of the Board of Directors, I am pleased to present the Directors' Report of the Bank along with the audited financial statements and Auditors' report for the year ended December 31, 2018.

#### **Economic Review**

The year 2018 saw some of the structural constraints of Pakistan economy come to the fore, which were magnified by the political noise associated with an election year. While the country saw a major positive of democratic continuity, economic challenges continued to grab the headlines.

Key data points announced during the year indicated that the country continued to observe high growth in FY18. Real GDP recorded a growth of 5.8%, highest in a decade, supported by manufacturing and service sectors which grew by 6.84% and 6.43%, respectively. This translated into average GDP growth of the last five years i.e. FY13 to FY18 clocking in at 4.8%, compared to 2.8% in FY08-13. Growth numbers for FY18 have subsequently been revised to 5.2%.

This growth momentum kept credit demand at elevated levels and credit to private sector increased by 16% YoY in FY18. Despite a likely slowdown in GDP growth during FY19, private sector credit has not shown signs of abating during Jun-Dec 2018, where provisional numbers reflect a 20% YoY growth.

The high growth phase seen in the economy during the last few years, has on the other hand resulted in stresses with the external account imbalance leading the way. Strong import growth to meet rising domestic consumption saw Pakistan's import bill grow at a CAGR of 10% over the last five years. In comparison, exports from Pakistan remained stagnant in the last few years due to multitude of factors, which resulted in compressing exports to only 9.4% of the GDP.

Rising domestic demand as well as soaring commodity prices further dented the external position in FY18, stretching country's trade deficit to US\$37.5bn. Capital inflows and worker remittances were insufficient to bridge the trade deficit, which resulted in depletion of Pakistan foreign exchange reserves, from US\$20.2bn at start of 2018 to US\$13.8bn by December 2018.

The impact of delepletion of foreign exchange reserves was seen in monetary and currency market adjustments during the year. The cumulative interest rate hike during CY18 stood at 425 bps while the currency depreciated by 26% to PKR139.5/USD by year end. In addition, policy initiatives were also taken to encourage exports and discourage imports. The impact of the above was also seen in inflation, which, as measured by the Consumer Price Index (CPI) increased to 6.2% for December 2018, compared to 4.6% for December 2017. Notable increase was seen in core inflation which increased from 5.5% to 8.4%.

Though inflationary pressures were by and large considered manageable, the depleting Foreign Exchange reserves amid Pakistan's upcoming debt repayments, has put Pakistan in a difficult situation. While structural reforms to address the deficiencies will require time, the new government was able to avert near-term pressures by bridging the shortfall via inflows from friendly countries, namely Saudi Arabia and UAE, while China also extended support in multiple forms.

In addition to cash deposits of US\$3bn each by Saudi Arabia and UAE, the two Middle Eastern countries are also considering to supply oil worth US\$3bn each to Pakistan on a deferred payment basis, which should

provide meaningful respite to Pakistan's external accounts beginning CY19. While the immediate pressures were averted due to timely support from friendly countries, the next phase requires much-needed external account reforms.

Another area that requires immediate attention is the bourgeoning fiscal deficit that has grown to 6.6% of GDP in FY18 (highest since FY14) from 5.8% in the previous year. The strain of higher current expenditures has been magnified by a slowdown in non-tax revenues, which can be traced to the absence of Coalition Support Fund (CSF) and lower markup/dividend income from PSEs. Tax revenues showed an increase of 13% YoY but were lower than target. As per provisional data for 1Q FY19, the deficit has not slowed down and is 1.4% of GDP for the quarter. The incoming government has however announced a number of fiscal measures via two Addendums to the Finance Bill.

#### Outlook:

Going forward, the key talking point is likely to be the level of engagement between Pakistan and the IMF. Discussions with IMF have been underway since the government assumed power but details have not been made public. While there is consensus on the perceived economic stability that will come with an IMF program, views differ on the conditionalities vis-à-vis the government's economic goals and objectives.

Irrespective of the outcome of ongoing discussions with IMF, the upcoming twelve months are likely to be instrumental in shaping the medium term outlook for Pakistan's economy. With the election year behind us, the government has gradually laid down key pillars of its macroeconomic framework with an emphasis on reindustrialization and export push.

Results of some of the measures and adjustments will start reflecting more meaningfully in macro-economic data over the next few months, but the initial signs indicate that the steps are bearing nascent fruit. While GDP growth is likely to clock in the 3.5-4.5% range, policy decisions will be instrumental in depicting the government's desired equilibrium between stability and economic growth.

#### **BANKING SECTOR REVIEW**

In 2018, despite economic challenges and political noise of an election year, Pakistan's banking sector continued exhibiting positive momentum on multiple fronts. Barring external factors impacting profitability, the banking sector received positive traction with gradual increase in spreads following several rounds of monetary tightening and stable capital adequacy.

Domestic deposits growth remained on lower side, clocking in at 8% YoY, the slowest deposit growth seen in the last decade. The latest available category wise data up to September 2018 however suggest that this could partially be due to a conscious effort by banks to focus on mix of deposits, as banks solicited lower cost transactional deposits and did not aggressively pursue higher-cost fixed deposits. CASA deposits depicted an increase of 12% YoY by September 2018, taking mix to 77.2%; 200bps higher YoY. Further banking industry also faced multiple challenges in deposit generation due to accountability drive, slowdown in government payments and devaluation, where all of these resulted in liquidity erosion and depositors staying away from the banking system.

Gross advances of the sector witnessed another year of remarkable growth in 2018, increasing by 21% YoY, prompted by higher credit to private sector. This led to net Advance to Deposit Ratio (ADR) of the sector increasing to 56% in 2018, highest in last 6 years and marked a shift from investments to advances,

capitalizing the rising capital demand in the economy. Correspondingly, Investment to Deposits Ratio (IDR) receded to 56.7% as of end 2018 vs. 69.0% at the same time last year.

Asset quality of the banking sector witnessed nascent signs of strain, owing to economic challenges domestically, while devaluation of the currency inflated the stock of overseas NPL in PKR terms. Combination of the two saw the stock of outstanding NPLs increase by PKR44bn in first nine months of 2018. The vibrant loan growth, however meant that the gross NPL ratio at 8.0% in September 2018 was materially better than the reading of 9.2% at the same time last year. More importantly, banks ensured that the coverage of increased NPL stock inched up further to 86%.

On the investments front, government securities continued to remain the dominant component of the investment pie, with a visible shortening of maturities seen during the year. Expectation of monetary tightening accompanied by gradual maturity of PIBs shortened the duration of investments of the sector and skewed the concentration towards Treasury Bills.

On the profitability front, rising interest rates saw the sector record gradual increase in spreads. This helped offset the impact of maturity of higher yielding PIBs on net interest income. On the non-interest income front, the increased volatility in the forex market provided the banks an avenue of recording higher income from dealing in foreign currencies. While these emerged as positive contributors, the impact of the same on bottom line was countered by higher credit cost, as banks maintained the coverage ratios on the higher NPL stock mentioned above. Other headwinds to sector profitability emerged from lower capital gains and also due to other extraordinary events impacting some industry players during the year.

On the regulatory front, few notable developments were introduction of 1) Deposit Protection Fund (DPF) and 2) Domestic Systematically Important Banks (DSIBs). While under the first initiative, all banks were mandated to deposit a certain percentage of their deposits into an Insurance / Protection Fund created by the SBP, the second revolved around increased minimum Capital Adequacy Requirements for banks designated as DSIB.

Going forward, the industry outlook will depend on how the economic landscape shapes up in light of policies of the new government. Path of interest rates might emerge as one of the key drivers, while government's fiscal needs and desired maturity profile of borrowing will shape the color of bank's investment books, in terms of the split between shorter tenor T-Bills and longer tenor PIBs. As existing stock of PIBs mature and banks build fresh bond positions as and when the opportunity arises, Capital and Currency markets vibrancy will likely be bigger determinants of market related income for banks for most part of the year. Furthermore, reinstatement of 4% Super Tax with back dated impact and removal of the 1% p.a. reduction in the same announced earlier, would impact profitability for 2019. The banking sector has been singled out by the Government by reinstating this levy and exempting other industries.

Government's focus towards reindustrialization and export push carries positive undertones for both loan growth and trade related fee income but the high interest rate environment will keep banks vary of asset quality pressures, especially in light of SBP looking to transition to a more conservative and forward looking provisioning regime in the near future.

#### THE BANK'S PERFORMANCE

The Bank's performance for 2018 remained impressive as we closed the year delivering sound financial results.

The highlights of the financial results for 2018 are as follows:

The highlights of the financial results for 2010 are as follows.		
•	2018	2017
		(Restated)
Financial Position	Rupees in	Millions
Shareholders' Equity	75,647	65,800
Total Deposits	702,895	644,985
Total Assets	1,006,218	998,828
Advances – net	501,636	400,655
Investments – net	277,660	400,733
	2018	2017
•		(Restated)
Financial Performance	Rupees in	Millions
Net Interest Income and Non Markup Income – continued operations	41,791	38,052
Non Markup Expenses – continued operations	24,365	24, <del>96</del> 3
Provisions and write offs (net) - continued operations	588	(616)
Profit before tax – continued operations	16,838	13,705
Profit after tax	10,625	8,367
Profit after tax – continued operations	10,150	8,166
Profit after tax – discontinuing operations	475	201
Basic earnings per share – Rupees	5.99	4.74
Diluted earnings per share - Rupees	5.98	4.72

The bank recorded an impressive growth of 27% in profit after tax despite a challenging operating environment. The Bank's profit before taxation (from continued operations) for the year stands at Rs. 16.838 Billion as against Rs. 13.705 Billion last year, showing improvement of 22.9%. Profit after tax (from continued operations) is Rs. 10.150 Billion as against Rs. 8.166 Billion last year, improving by 24.3%. The total profit after tax of the bank stands at Rs. 10.625 Billion against Rs. 8.367 Billion, improving by 27.0%. This translates into an EPS of Rs. 5.99 per share (2017: Rs. 4.74 per share).

On the revenue front, net markup income and non markup income from continued operations show combined growth of 9.83%. The Bank was able to overcome the pressure on net interest income (NII) due to the maturities of high yielding bonds through growth in overall average earning assets and improved spreads. Non-funded income stood at Rs. 10.200 billion, an increase of 12.39% over the corresponding period last year, led by strong growth in foreign exchange income, fee businesses as well as dividend income.

Total non-mark up expenses (from continued operations) were reported at Rs. 24.365 Billion as against Rs. 24.964 Billion last year, declining by 2.4%. This is after taking an impact of branch expansion and investment in IT infrastructure, digital channels, deposit protection premium along with inflationary adjustments and PKR devaluation at the latter part of the year. Excluding the one-offs in 2017 and 2018, the operating expenses remained flat.

The bank's profit from discontinuing operation has increased from Rs. 201.064 million to 474.952 million and includes reversal of provision amounting to Rs. 443.898 million (USD 3.949 million), previously held against amount blocked in the Bank's Nostro account following settlement of dispute, and release of funds in favour of the Bank.

The Bank achieved robust growth in its retail and corporate businesses, across lending and deposit-taking. The Bank's gross advances portfolio increased impressively by Rs. 100.981 Billion, i.e. 25.20% year on year. The bank strategy is to acquire high quality credit while maintaining an efficient risk weighted assets (RWA) profile. The Bank has managed to adequately cover its non-performing advances of Rs. 18.822 Billion. Our NPL ratio has improved to 3.6% as compared to 4.2% last year, and continues to remain one of the lowest infection ratios in the industry. As at December 2018, the Bank's provision coverage stands at 84.39%. These ratios incorporate the impact of subjective provisioning taken by the bank based on prudence.

We continue to carry a diversified deposit mix on the balance sheet, with improved concentration levels. This buildup in the core deposit levels positions the Bank ideally to maximize on the yield upside in its net earnings as interest rates trend upwards. Our focus throughout the year remained on improving our deposit profile and managing spreads. Total Deposits were reported at Rs. 702.895 Billion as against Rs. 644.985 Billion reported last year mainly led by growth in current accounts by 11.07%. At the year end, our gross advances to deposits ratio stands at 73.8%, and remains an indicator where Bank maintains a lead in the industry.

On the investments side, following the significant maturity of PIBs, the investment mix shifted towards Treasury Bills. Investments (net) have been reported at Rs. 277.660 Billion as against Rs. 400.733 Billion reported last year.

As at December 31, 2018, the Bank remains adequately capitalized as outlined in the section on Capital structure below.

#### **SUBSIDIARIES COMPANIES:**

Bank Alfalah posted consolidated profit after tax (PAT) of Rs. 10.991 billion for the year ended December 31, 2018 (2017: Rs. 8.613 billion). Earnings per share (EPS) was measured at Rs. 6.20 in comparison to Rs. 4,88 for the corresponding period last year.

The Bank has 97.91% shareholding in Alfalah Securities (Private) Limited, which is engaged in the business of stock brokerage, investment consultancy and fund placements. During the year, CLSA JV Holdings Limited and Bank Alfalah Limited entered into a strategic partnership in Pakistan that will leverage Alfalah Securities' market leading position and CLSA's award-winning research and outstanding client base of global institutional investors. According to the agreement, CLSA JV and other investors, subsequent to the year-end have acquired shares in Alfalah Securities by way of right issue diluting the bank's holding to 62% of the company. The Bank also has 40.22% shareholding in Alfalah GHP Investment Management Limited, which is registered as an Asset Management Company and Investment Advisor under the Non-Banking Finance Companies (Establishment and Regulation) Rules.

# Performance of Subsidiaries:

The Asset Under Management (AUMs) of Alfalah GHP Management Limited increased from Rs 25.59 billion to Rs 31.12 billion; or up 21% YoY. The industry AUMs of open end mutual funds meanwhile increased from Rs 546 billion to Rs 552 billion i.e. 1% during the year. The Company has earned gross revenue amounting to Rs 470 million as compared to Rs 539 million last year. AUMs in high fee earning equity and

equity related funds declined due to bearish stock market resulting in pressure on stock funds both from redemption and revaluation losses. On the other hand due to high interest rates money market and fixed income funds became more attractive. The profit after tax amounted to Rs 164 million as compared to Rs 165 million last year. The bottom line remained intact due to cost control on discretionary expenses and prior year's tax benefit.

Alfalah Securities earned an operating revenue of PKR 130.801 million as compared to PKR 192.867 million for the corresponding period. The company posted before and after-tax loss of PKR 86.229 million and PKR 99.662 million respectively as compared to before and after-tax profit of PKR 31.043 million and PKR 19.536 million respectively for the corresponding period. The loss per share for the year stood at PKR 3.99 as compared to profit per share of PKR 0.33 for the corresponding period. The main reason for decline in revenue and earnings were persistent low market volumes at local bourses and negative sentiment among the investors throughout the year. The focus of the Company in the upcoming year will be on earnings growth through capturing market share, as investor sentiment recovers. The partnership with CLSA should work well to achieve this target.

#### **BONUS SHARES AND DIVIDEND**

The Directors have recommended final payment of Cash dividend of Rs. 1.50 per share (15 %) for the year ended December 31, 2018, subject to approval of the shareholders in the upcoming annual general meeting, bringing the total cash dividend for the year to Rs. 2.50 per share. The Board had earlier declared and paid interim cash dividend of Rs. 1.00 per share. The Board had also declared interim stock dividend of 10% i.e. 10 shares for every 100 shares held.

#### **ASSETS HELD FOR SALE**

During 2017, the Board accorded its in-principle approval and authorised the management of the Bank to explore the possibility to sell the Afghanistan Operations of the Bank to the potential buyer, subject to obtaining all regulatory approvals, compliance with applicable laws and regulations in the matter.

In Q2 2018, the bank signed a Business Transfer Agreement with the potential buyer for the sale of the Afghanistan operations and subsequently an application for approval of the transaction was made to the DA Afghanistan Bank (DAB), the Central Bank in Afghanistan. The DAB has raised some queries on the application which the Bank and the potential buyers are in the process of responding.

Resultantly, all assets and liabilities and income and expense for the Bank's Afghanistan Operations are presented as a separate line items on the balance sheet as Non-Current Assets and Liabilities Held for Sale and profit after taxation from discontinuing operations respectively, rather than as part of actual line items under which they were being reported historically. The details have been given in note 21 to the unconsolidated financial statements.

#### **CREDIT RATING**

The Bank has been assigned an Entity Rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term by PACRA, with Outlook assigned as 'Stable'. The unsecured subordinated debt (Term Finance Certificates) of the Bank has been awarded a credit rating of 'AA' (Double A), with Outlook assigned as 'Stable'.

Furthermore, JCR-VIS Credit Rating Company Limited (JCR-VIS) also assigned an entity rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term to the Bank, with Outlook assigned as 'Stable'. The unsecured Tier 1 Capital (Term Finance Certificate) of the bank has been awarded a credit rating of 'AA-' (Double A Minus), with 'Stable' Outlook.

The assigned ratings reflect the Bank's diversified operations, healthy financial risk profile, strong sponsors and existing market presence. These ratings denote a very low expectation of credit risk, a strong capacity for timely payment of financial commitments in the long term and the highest capacity for timely repayment in the short term, respectively.

#### **CORPORATE GOVERNANCE**

The Bank is in compliance with the significant requirements of the Listed Companies (Code of Corporate Governance) Regulations, 2017. A prescribed statement by the management together with the Auditors' Review Report thereon is annexed as part of the Annual Report.

The Directors are pleased to give the following statements required under Chapter XIII - Reporting and Disclosure of the aforementioned Regulations:

1. The total number of directors are nine as per the following:

i.	Male:	Eight
ii.	Female:	One

2. The composition of the board is as follows:

i.	Independent Directors	Three
ii.	Other Non-executive Director	Five
iii.	Executive Directors	One

- 3. The Board from time-to-time establishes committees to discharge its responsibilities. For each board committee, the Board adopts a formal Terms of Reference (ToRs) setting out the matters relevant to the composition, roles, functions, responsibilities and administration. The following committees have been constituted by the Board:
  - i. Board Audit Committee
  - ii. Board Strategy and Finance Committee
  - iii, Board Risk Management Committee
  - iv. Board Human Resource, Remuneration and Nomination Committee
  - v. Board Information Technology Committee [new committee formed in 2018]
  - vi. Board Compensation Committee

For committees' members and ToRs, please refer page xx to xx of the Annual Report.

4. The Directors' fee structure was approved by the members in annual general meeting held on March 29, 2012, whereas payout is approved on post facto basis every year by the members, as required by SBP Prudential Regulations. The new Code requires a formal policy which is in the process of being formulated and shall be in place in due course. The required disclosure regarding Directors' fee form part of note 41 of the unconsolidated financial statements.

As a matter of best practice, the Directors are pleased to give the following Statements:

- a) The financial statements, prepared by the management, present fairly the state of affairs of the Bank, the result of its operations, cash flows and changes in equity;
- b) Proper books of accounts of the Bank have been maintained;
- Appropriate accounting policies, as stated in the notes to the financial statements have been consistently applied in preparation of financial statements and accounting estimates are based on reasonable and prudent judgment;

- d) International Financial Reporting Standards, as applicable to banks in Pakistan, have been followed in preparation of financial statements;
- e) The system of internal control is sound in design and has been effectively implemented and monitored;
- f) There are no significant doubts about the Bank's ability to continue as a going concern;
- g) There has been no material departure from the best practices of corporate governance;
- h) Summarized key operating and financial data of last six years has been presented as part of the Annual Report;
- i) The number of Board and Board Committee meetings held during the year 2018 and the attendance by each director was as follows:

Sr. No	Name of Directors	Board of Directors Meetings	Board Audit Committe e Meetings (BAC)	Board Strategy and Finance Committe e Meetings (BS&FC)	Board Human Resources , Remunera tion & Nominatio n Committe e Meetings (BHR&NC)	Board Risk Managem ent Committe e Meetings (BRMC)	Board Informati on Technolog y Committe e Meetings (BITC)	Board Compensa tion Committe e Meetings (BCC)

Directors elected and appointed during the year

<sup>\*\*</sup> The directors retired/resigned during the year

- j) As at December 31<sup>st</sup> 2018, the Bank is compliant in respect of the Director's training requirement provided in the Code of Corporate Governance;
- k) The pattern of shareholding is attached as part of this annual report;
- There are no loans, TFCs, sukuks or any other debt instruments in which the Bank is in default or likely to default; and
- m) Trading pattern in the shares of the Bank, by directors, executives, their spouses and minor children have been disclosed as part of the Annual Report.

#### **RISK MANAGEMENT**

During the course of the year, Bank Alfalah continued to further strengthen its risk management framework. This includes automation, refinement of credit approval process and implementation of centralized Loan Origination System for UAE Operations too. Bank has implemented IFRS 9 in its UAE, Afghanistan and Bahrain operations.

Owing to its branch-led model, robust credit underwriting criteria and strong collection framework, the Bank has the maintained lower infection ratio than industry average, while at the same time maintaining a strong growth trajectory in advances. The Bank was also selected as sample bank by the Regulator under the D-SIB (Domestically Systematically Important Bank) and it stands complied with enhanced supervisory requirements. In addition, Bank also completed the quantitative & qualitative impact assessment of IFRS 9 for Pakistan Operations.

#### Capital Structure of the Bank

The Bank remained a well-capitalized institution with a capital base well above the regulatory limits and Basel capital requirements. The Bank continues with a policy of sufficient profit retention to increase its risk absorption capacity. Bank's total Capital Adequacy Ratio is 14.95% against the requirement of 11.90% (including capital conservation buffer of 1.90%). Quality of the capital is evident from Bank's Common Equity Tier-1 (CET1) to total risk weighted assets ratio which comes to 10.90% against the requirement of 6.00%. Bank has ample cushion in its capital base to meet the Capital Conservation Buffer (CCB) of 2.5% of the total RWA, to be maintained in the form of Common Equity Tier 1 by the year end 2019. Bank's adequate capitalization also resulted in a leverage ratio of 5.64% which is above the regulatory limit of 3.0%.

#### **Information Security**

Information security is a key risk for the financial industry amid growing cyber security threats and events across the globe. Information security mitigates risks to bank's technology assets by developing IT security baselines for IT solutions that support products and services. Additionally, significant developments with respect to the cyber security action plan took place during the year including further strengthening our resilience and defence capabilities through monitoring of threats and vulnerabilities via 24/7 Security Operations Centre.

#### Compliance Risk

Bank Alfalah has been committed to enhance its compliance area across the network including overseas operations. Compliance and Control Group of the bank comprises three divisions i.e. Compliance, Internal Control and Fraud Risk Management Unit. Following the global and local regulatory focus on AML/ CFT and sanctions, the Compliance and Control Group has a major participation in the meetings of Board Audit

Committee. The committee is monitoring an approved Compliance Action Plan, compliance affairs of local and overseas operations and matters pertaining to regulatory concerns.

#### FORWARD LOOKING STATEMENT

2018 has been a rewarding year for us at Bank Alfalah across many spectrums. We continued on our journey of delivering sustainable and solid financial results. During the year, Bank Alfalah won the 'Best SME Bank' award as well as the 'Best Customer Franchise' award, for the third year running, at the Pakistan Banking Awards. These awards are a testament to our continued commitment and dedication towards our customers and stakeholders. The SME Award is particularly special as SMEs represent one of the most underserved market segment in the country.

Looking ahead, Bank Alfalah is well positioned for sustainable growth and building long-term shareholder value. We will continue to invest in Digital Banking, in our technology infrastructure, in human capital and in strengthening our compliance and controls environment. At the same time, we will continue to focus on building a low cost deposit base, improving the return on capital on risk assets, optimizing returns from the banking book and enforcing a strong cost discipline across the bank. Given the significant rise in interest rates over the last year and the risk of credit headwinds, we will continue to follow prudent risk management practices and manage the loan book optimally.

In line with our mission, we seek to be the preferred bank for our customers and will always look to put our customers and their needs first. We are also committed to providing the best workplace environment for our employees by living our values and by enriching the employee experience. To this end, 2019 has been declared as the 'Year of Happiness' at Bank Alfalah. It is ultimately through our employees that we will be able to achieve our mission.

#### Uncertainties that could affect the Bank's resource, revenues and operations

All forward looking statements are, by nature, subject to risks and uncertainties, some beyond control. Factors that may potentially affect the Bank's resource, revenues and operations are:

- Decisions on Discount Rate / Monetary policy;
- Revisions to rate of returns on deposits;
- Geo-Political risks and uncertainties across the geography that we operate in;
- Law and Order situation;
- Local Government rules and regulations;
- Inflation, fuel and general commodity prices; and
- Corporate taxation measures.

The bank's Risk Management Group performs stress testing against various pre-determined scenarios to analyse potential losses and to determine whether the bank has enough capital to withstand the impact of adverse economic developments. The results of such tests has showed that the bank has adequate capital, liquidity and profitability to bear such losses.

#### INTERNAL CONTROLS

The Board considers Sound Control Framework as a key to sustainable growth and vehicle for Value Creation. In accordance with Board Vision and in line with SBP & SECP guidelines, the Management has been continuously striving for implementing a Comprehensive Governance & Control Framework to ensure

efficiency and effectiveness of operations, compliance with legal requirements and reliability of financial reporting. Adequate systems, processes and controls have been put in place to identify and mitigate the risk of failure to achieve the overall objectives of the Bank.

The 8ank has a dedicated Internal Control Division, which, through its regular onsite field visits & offsite thematic reviews facilitates the management in timely identification and resolution of the key control / compliance risk exposures, which can affect bank adversely. The ICD helps management to ensure that the Bank's Operations are carried out as per the defined procedures; transactions are recorded on timely manner; financial and management reporting is accurate, reliable and complete; and that the Bank is compliant with the applicable laws, Regulations and Policies. Showing commitment to culture focusing on controls improvement, in 2018, under the guidance of Board, ICD also introduced a Comprehensive Grading Framework for identification & quantification of different types of control risk exposures, which would help management in developing strategies to mitigate those control gaps with focused & targeted approach. Besides ICD, Compliance Division & Risk Management Division are also integral part of BAFL Control Framework, helping the management in improving controls.

Existing policies and procedures are reviewed on a regular basis and improved from time to time, when required. The Board has constituted its sub committees for oversight of the overall Risk Management framework, Finance and Strategy, which meet at regular intervals to ensure adequacy of governance.

Board also obtains regular independent opinion over control health of the bank through an independent & well-functioning Audit & Inspection Setup, which is reporting to Board through Board Audit Committee. Remedial Actions are advised and followed up for implementation against the control breaches by Board Audit Committee as well.

The Board endorses the management's evaluation on effectiveness of the overall internal controls, including ICFR, as detailed in the Statement of Internal Controls.

#### CORPORATE SOCIAL RESPONSIBILITY

At Bank Alfalah, we believe that our success and the success of our customers go hand-in-hand. We aim to conduct business by creating shared values for all our stakeholders. Corporate Social Responsibility is an instrument of positive change and continues to be one of the most important aspects of our business.

We are firm in our commitment to operate within an ethical framework, while contributing to socioeconomic development. As we continue to build responsible business practices across the bank, we ensure that we capture every opportunity deepening the impact of our Corporate Social Responsibility and philanthropic footprint. During the year, the Bank has paid charitable donation amounting to Rs. 36.594 million to different educational and charitable institutions, including Rs. 8.650 million to Supreme Court Diamer Bhasha And Mohmand Dam Fund. The staff of the bank has also contributed their one day salary toward the Dam Fund.

As a bank we are focused on energy conservation initiatives and providing sustainable finance. We work to improve the communities around us, especially within the health and education sectors. Please refer the Sustainability section for more information

#### **EXTERNAL AUDIT**

Based on the consent received from the Bank's existing auditors M/s EY Ford Rhodes & Co., Chartered Accountants, to continue to act as auditors of the Bank, if so appointed. The Audit Committee has suggested their name to be appointed as external auditors of the Bank for the next year.

The firm of auditors have confirmed that they have been given a satisfactory rating under the Quality Control Review program of the Institute of Chartered Accountants of Pakistan, and that the firm and all their partners are compliant with the International Federation of Accountants' (IFAC) Guidelines on Code of Ethics, as adopted by the Institute of Chartered Accountants of Pakistan, and meet the requirements for appointment under all applicable laws.

#### **ACKNOWLEDGEMENT**

On behalf of the Board, we would once again like to thank the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan, the Ministry of Finance and other regulatory authorities for their continuous guidance and support. At the same time, we would like to express our gratitude to our shareholders, our customers, business partners and the Bank's staff for their continued patronage.

Our values are to put our customers and their needs front and center, to achieve good results but to do so in a way that treats all of our stakeholders – employees, customers, regulators and shareholders – in a fair and transparent way. This we believe is the RIGHT WAY and will continue to govern our actions.

We expect the Pakistan economy to show reasonable growth in 2019, helped by recovering consumer confidence, improving investment environment and trade. We look forward to seeing 2019 as a prosperous year for Pakistan and Bank Alfalah.

UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

AC/AAR/324/19 10 February 2019

The Board of Directors Bank Alfalah Limited (the Bank) B.A. Building, I.I. Chundrigar Road Karachi, Pakistan

Dear Sirs

#### DRAFT FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

We are pleased to enclose five copies of the draft financial statements of the Bank for the above year, together with our draft audit report thereon to the members initialed by us only for identification purposes. We understand that the enclosed financial statements have been endorsed by the Chief Executive Officer and Chief Financial Officer of the Bank for consideration and approval by the Board.

- We shall be pleased to sign and issue our audit report after:
  - a) the Board has approved the financial statements and these have been signed by the Chief Financial Officer, Chief Executive and three Directors of the Bank authorized in this behalf;
  - b) the Board has specifically approved the items listed in Annexure 'A' of this letter;
  - c) we have received representation letter duly signed by the Chief Executive and Chief Financial Officer of the Bank; and
  - d) we have received the draft annual report of the Bank containing financial and non-financial information that will be published along with the financial statements which is required to be reviewed by us in terms of the requirements of International Standard on Auditing 720 " Other Information in Documents Containing Audited Financial Statements".

# 2. RESPONSIBILITIES OF THE AUDITORS AND MANAGEMENT IN RELATION TO THE FINANCIAL STATEMENTS

The responsibilities of the independent auditors in respect of statutory audit of Financial Statements are stipulated in Section 249 of the Companies Act, 2017, Section 35 of the Banking Companies Ordinance, 1962 and International Standards on Auditing.

While the auditors are responsible for forming and expressing their opinion on the financial statements, the responsibility for preparation and presentation of such financial statements is primarily that of the Bank's management. The management's responsibilities include the maintenance of adequate accounting records and internal controls, the selection and application of accounting policies, safeguarding of the assets of the Bank and prevention and detection of frauds and irregularities. The audit of the financial statements does not relieve the management of its responsibilities. Accordingly, our audit of financial statements should not be relied upon to disclose all errors or irregularities which are not material in relation to the financial statements taken as whole.

たって

# REVISED CONTENT OF THE INDEPENDENT AUDITOR'S REPORT AS PER SECURITIES AND **EXCHANGE COMMISSION OF PAKISTAN (SECP) REGULATIONS**

In January 2015, the International Auditing and Assurance Standards Board (IAASB) issued revised set of auditing standards dealing with the auditors reporting requirements. These new reporting requirements have been adopted by the SECP in its regulations on auditors reporting obligations issued in April 2018. While these changes have resulted in various enhancements in the content of the auditor's report, the most significant change is the requirement to communicate key audit matters as part of the auditor's report. Accordingly, our audit report on the financial statements of the current year (as enclosed with this letter) has been prepared in line with the new requirements and include the following key audit matters:

# PROVISION AGAINST NON PERFORMING CREDIT EXPOSURE

The Bank's credit portfolios include loans and advances, and non-funded credit facilities. The credit portfolio is spread across various domestic branches and overseas operations.

As per the Bank's accounting policy (refer note 4.5 to the financial statements), the Bank determines provisions against non-performing financing exposures in accordance with the requirements of Prudential Regulations of State Bank of Pakistan (SBP) in respect of potential credit losses in the portfolio. Such regulations require specific provisioning against loan losses on the basis of an age based criteria which should be supplemented by a subjective evaluation of Bank's credit portfolio. The determination of loan loss provision against certain vulnerable corporate loans, therefore, involve use of management judgment, on a case to case basis, taking into account factors such as the economic and business conditions, borrowers repayment behaviors and realizability of collateral held by the Bank. In view of the significance of this area in terms of its impact on the financial statements and the level of involvement of management's judgment, we identified adequacy and completeness of loan loss provision as a significant area of audit judgment and a key audit matter.

# PREPARATION OF FINANCIAL STATEMENTS UNDER BPRD CIRCULAR NO.02 OF 2018

As referred to in note 4.1.1 to the financial statements, State bank of Pakistan (SBP) vide its BPRD circular no. 02 of 2018, (the circular) revised the statutory forms of the annual financial statements of banks effective from the year ended 31 December 2018.

The revised statutory financial reporting framework as applicable to the Bank, prescribes the presentation format, nature and content of disclosures in relation to various elements of the financial statements.

The above changes and enhancements in the financial statements are considered important and a key audit matter because of the volume and significance of the changes in the financial statements resulting from the transition to the new reporting requirements.

#### 4. SIGNIFICANT MATTERS

We would like to draw attention of the Board to the following matters:

# **AFGHANISTAN OPERATIONS**

The Board of Director's in their meeting held on 17 August 2017 accorded its in-principal approval and authorized the management to explore the possibility to sell the Afghanistan Operations (the Operations) of the Bank to a potential buyer, subject to obtaining all regulatory approvals, compliance with applicable laws and regulations. Accordingly, in the financial statements of the Bank for the year ended 31 December 2017, the Operations were classified as Assets and liabilities held for sale under IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations"

A business transfer agreement to this effect was signed on 14 May 2018 between Azizi Bank and the Bank. However, the transfer of the assets and liabilities forming the business is conditional upon approval from DA Afghanistan Bank and the Ministry of Finance which is still pending. We have been informed that recently, the DA Afghanistan Bank has raised certain queries, however, the management and the purchaser are following up with the DA Afghanistan Bank for approval on a regular basis.

IFRS 5 requires that on the date of classification, the sale should be expected to qualify for recognition as a completed sale within one year. However, events or circumstances may extend the period to complete the sale beyond one year. Further, an extension of the period required to complete a sale does not preclude an asset from being classified as held for sale if the delay is caused by events or circumstances beyond the entity's control and there is sufficient evidence that the entity remains committed to its plan to sell the asset.

We have been given to understand by the management, that due to circumstances beyond the control of the Bank, the sale has not been concluded, however, the Bank remains committed to its plan to sell the Operations. Accordingly, as disclosed in note 21 to the financial statements, the assets and liabilities of the Operations continue to be classified as held for sale in the financial statements of the Bank for the year ended 31 December 2018.

# 4.2 INTERNATIONAL FINANCIAL REPORTING STANDARD (IFRS) 9 - FINANCIAL INSTRUMENTS

#### Local Operations

Radiologia to Se working iversis

During the year, SBP issued letter No. BPRD/RPD/2018 - 7837 on 'IFRS 9: Readiness Assessment and Quantitative Impact Assessment' dated 10 April 2018 which required the Bank to perform a quantitative impact analysis of IFRS 9 "Financial Instruments" as of 31 December 2017. This assessment is required to be reviewed by the statutory auditors as well.

The aforesaid assessment have been recently submitted to the State Bank of Pakistan in draft form which inter-alia among other matters highlighted major gaps due to absence of data which would result in difficulties in the future implementation of IFRS 9.

We recommend that management should start a detailed implementation plan of IFRS 9 for the Bank's financial instruments. Significant efforts will be required to implement the standard. An analysis of existing information system and availability of data should be assessed to determine whether changes in existing information system are required to gather such information and data required to meet new ECL and disclosures requirements of IFRS 9.

#### **Overseas Operations**

£7 -

As disclosed in note 4.1.3 to the unconsolidated financial statements, during the current year, the Bank's Bahrain, Afghanistan and UAE Operations have, in line with their respective locally applicable regulatory frameworks, adopted IFRS 9 'Financial Instruments' as issued by the International Accounting Standards Board (IASB) in July 2014. In order to ensure compliance with the regulatory framework in these countries, the expected credit loss charge arising as a result of adoption of IFRS 9 has been retained as a general provision in these unconsolidated financial statements.

As permitted by the transitional provisions of IFRS 9, the Bank elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings of the current year.

The adoption of this standard by the overseas branches have resulted in additional net of tax provisioning requirement of Rs. 81.596 million in respect of prior year which has been incorporated in the opening balance of retained earnings, while net of tax provision reversal of Rs. 21.264 million has been booked in profit and loss statement of overseas operations, in respect of current year.

#### 5. OUTSTANDING CONFIRMATIONS

We have not received responses to our requests for information from:

- various correspondent banks regarding confirmations of outstanding balances at the year-end;
   and
- Certain legal advisors of the Bank regarding information relating to litigations, existing or anticipated, at the year-end or arising subsequent thereto involving the Bank.

We have provided a list of all such outstanding confirmations to the management for follow up. We have, however, performed alternative audit procedures in relation to the relevant audit areas and have also been represented by the management that no significant liability is likely to arise from in respect of the matters being handled by the legal advisors who have not responded to our request for information till date.

# 6. CONTINGENCIES AND COMMITMENTS AND RELATED PARTY TRANSACTIONS

We have been informed by the management that there were no contingencies and commitments and transactions with the related parties during the year other than those disclosed in the unconsolidated financial statements.

#### 7. MANAGEMENT LETTER

This letter contains our communication to the Board on significant matters relating to the financial statements, however, we also expect to provide you in the due course a separate management letter containing our observations and recommendations on internal controls and related matters.

We place on record our appreciation of the co-operation and courtesy extended to us by the management during the course of our review.

Yours faithfully

OC:AAR:bf.

Annexure 'A' Page 1 of 1

BANK ALFALAH LIMITED
AUDIT OF THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2018
(to be read with our letter reference AC/AAR/324/19 dated 10 February 2019)

-	Transactions with related parties as disclosed in note 45 to the unconsolidated financial statements	

#### INDEPENDENT AUDITORS' REPORT

To the members of Bank Alfalah Limited

Report on the Audit of the Financial Statements

#### Opinion

พาสาค สนุ้ายอาษา

We have audited the annexed unconsolidated financial statements of Bank Alfalah Limited (the Bank), which comprise the unconsolidated statement of financial position as at 31 December 2018, and the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flows statement for the year then ended, notes to the financial statements, including a summary of significant accounting policies and other explanatory information in which are incorporated unaudited certified returns received from the branches except for 60 branches which have been audited by us and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, unconsolidated statement of profit and loss and the unconsolidated statement of comprehensive income, unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017(XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2018 and of the profit or loss and other comprehensive income or loss or the comprehensive income, the changes in equity and its cash flows for the year then ended.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Building a better working world

Following are the key audit matters:

# Kev audit matters How the matter was addressed in our audit. - Provision against Non Performing Credit Exposure

The Bank's credit portfolios include loans and advances, and non-funded credit facilities. The credit portfolio is spread across various domestic branches and overseas operations.

As per the Bank's accounting policy (refer note 4.5 to the financial statements), the Bank periodically assess the adequacy of its provisions

against non-performing credit exposures in accordance with the requirements of Prudential Regulations of State Bank of Pakistan.

regulations require specific provisioning against loan losses on the basis of an age based criteria which should be supplemented by a subjective evaluation of Bank's credit portfolio. The determination of loan loss provision against certain vulnerable corporate loans, therefore, involve use of management judgment, on a case to case basis, taking into account factors such as the economic and business conditions, borrowers repayment behaviors and realizability of collateral held by the Bank.

In view of the significance of this area in terms of its impact on the financial statements and the level of involvement of management's judgment, we identified adequacy and completeness of loan loss provision as a significant area of audit judgment and a key audit matter. We applied a range of audit procedures including the following:

- The reviewed the Bank's process for identification and classification of non-performing loans including the quality of underlying data and systems. As part of such review we performed an analysis of the changes within the different categories of classified non-performing accounts from last year to the current reporting date. This analysis was used to gather audit evidence regarding downgrading of impaired loans and declassification of accounts from non-performing to regular, as the case may be.
- We performed independent checks for the computations of provisions in line with the requirements of the applicable Prudential Regulations.
- In addition, we selected a representative sample of borrowers from the credit portfolios across various branches including individually significant corporate loans and performed tests and procedures such as review of credit documentation, repayment history and past due status, financial condition as depicted by the borrowers' financial statements, nature of collateral held by the bank and status of litigation, if any, with the borrower;
- Based on the said credit reviews, we identified and discussed with the management the loan accounts where the credit risk appear to have increased. We reviewed the adequacy of provisions against such accounts on the basis of our independent objective evaluation of the risk mitigating factors that exist in such cases;
- We also assessed adequacy of disclosures as included in note 9.4 and 9.5 to the financial statements regarding the non-performing loans and provisions made for the same in the financial statements in accordance with the requirements of the applicable financial reporting framework.

Building a better working world

# Key audit matters How the matter was addressed in our audit Preparation of Financial Statements under BPRD Circular No.02 OF 2018

As referred to in note 4.1.1 to the financial statements, State bank of Pakistan (SBP) vide its BPRD circular no. 02 of 2018, (the circular) revised the statutory forms of the annual financial statements of banks effective from the year ended 31 December 2018.

The revised statutory financial reporting framework as applicable to the Bank, prescribes the presentation format, nature and content of disclosures in relation to various elements of the financial statements.

The above changes and enhancements in the financial statements are considered important and a key audit matter because of the volume and significance of the changes in the financial statements resulting from the transition to the new reporting requirements.

- We assessed the procedures applied by the management for identification of the changes required in the financial statements due to the application of the revised forms for the preparation of such financial statements.
- We also evaluated the sources of information used by the management for the preparation of the financial statements disclosures and the internal consistency of the disclosures with other elements thereof.
- We considered the adequacy and appropriateness of the additional disclosures and changes in the presentation of the financial statements based on the requirements of the statutory forms.

## Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Management and the Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

24/17

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud
  may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events
  in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# Report on Other Legal and Regulatory Requirements

- Based on our audit, we further report that in our opinion:
  - a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
  - b) the statement of financial position, the statement of profit or loss and other comprehensive income or the statement of comprehensive income, statement of changes in equity and statement of cash flows (together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017(XIX of 2017) and are in agreement with the books of account and returns

- c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.
- We confirm that for the purpose of our audit we have covered more than sixty per cent of the total loans and advances of the Bank.

#### Other Matters:

The financial statements of the Bank for the year ended 31 December 2017 were audited by another firm of chartered accountants who expressed an unmodified opinion thereon dated 25 February 2018.

The engagement partner on the audit resulting in this independent auditors' report is Omer Chughtai.

# BANK ALFALAH LIMITED NOTES TO AND FORMING PART OF THE UNCONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2018

#### 1 STATUS AND NATURE OF BUSINESS

Bank Alfalah Limited (the Bank) is a banking company incorporated in Pakistan on June 21, 1992 as a public limited company. It commenced its banking operations on November 1, 1992. The Bank's registered office is located at B. A. Building, I. I. Chundrigar Road, Karachi and is listed on the Pakistan Stock Exchange. The Bank is engaged in banking services as described in the Banking Companies Ordinance, 1962 and is operating through 486 conventional banking branches including 24 sub branches (2017: 475 branches including 22 sub branches), 10 overseas branches (2017: 10 branches), 152 Islamic banking branches including 1 sub branch (2017: 152 branches) and 1 offshore banking unit (2017: 1 unit).

#### 2 BASIS OF PRESENTATION

#### 2.1.1 STATEMENT OF COMPLIANCE

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under Companies Act 2017.
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017.
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP)

Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through various circulars. The State Bank of Pakistan through BPRO Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements.

- 2.1.2 These unconsolidated financial statements represent separate financial statements of Bank Alfalah Limited in which investment in subsidiaries and associates are accounted for on the basis of direct equity interest rather than on the basis of reported results.
- 2.1.3 Key financial figures of the Islamic Banking branches are disclosed in Annexure II to the unconsolidated financial statements.
- 2.2 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current year.

There are certain new and amended standards, interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 1, 2018 but are considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these unconsolidated financial statements.

4/2

2.3 Standards, interpretations of and amendments to published approved accounting standards that are not yet effective.

The following standards, amendments and interpretations of approved accounting standards will be effective for accounting periods beginning on or after January 01, 2019:

Standard, Interpretation or Amendment	Effective date (annual periods beginning on or after)		
IFRS 3 - Definition of a Business (Amendments)	January 01, 2020		
IFRS 9 – Financial Instruments: Classification and Measurement	July 01, 2018		
IFRS 9 – Prepayment Features with Negative Compensation - (Amendments)	January 01, 2019		
IFRS 10 Consolidated Financial Statements and IAS 28 Investment in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendment)	Not yet finalized		
IFRS 15 – Revenue from Contracts with Customers	July 01, 2018		
IFRS 16 – Leases	January 01, 2019		
IFRIC 23 – Uncertainty over Income Tax Treatments	January 01, 2019		
IAS 1/ IAS 8 Definition of Material Amendments to IAS 1 and IAS 8	January 01, 2020		
IAS 19 - Plan Amendment, Curtailment or Settlement (Amendments)	January 01, 2019		
IAS 28 – Long-term Interests in Associates and Joint Ventures – (Amendments)	January 01, 2019		

The above standards, amendments and interpretations are not expected to have any material impact on the Bank's financial statements in the period of initial application, other than IFRS 9 and IFRS 16. With regard to IFRS 9, the Bank considers that as the Prudential Regulations and other SBP directives currently provide the accounting framework for the measurement and valuation of investments and provision against non performing loans and advances, the implementation of IFRS 9 may require changes in the regulatory regime. Therefore, the Bank expects that the SBP would issue suitable guidance and instruction on the application of IFRS 9 for the banking sector of Pakistan. With regard to IFRS 16, the Bank is currently evaluating the impact of application of IFRS 16 on its financial statements.

There are certain new and amended standards and interpretations that are mandatory for the Bank's accounting periods beginning on or after January 1, 2018 but are considered not to be relevant or do not have any significant effect on the Bank's operations and are therefore not detailed in these financial statements.

In addition to the above standards and amendments, improvements to various accounting standards have also been issued by the IASB in December 2017. Such improvements are generally effective for accounting periods beginning on or after 01 January 2019. The Bank expects that such improvements to the standards will not have any impact on the Bank's financial statements in the period of initial application.

Further, following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

Standard

IASB Effective date (annual periods beginning on or after)

# 2.4 Critical accounting estimates and judgments

The preparation of these unconsolidated financial statements in conformity with approved accounting standards as applicable in Pakistan requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and income and expenses as well as in the disclosure of contingent liabilities. It also requires management to exercise judgement in application of its accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, or in the period of revision and in future periods if the revision affects both current and future periods.

Significant accounting estimates and areas where judgements were made by the management in the application of accounting policies are as follows:

- i) classification and provisioning against investments (notes 4.4 and 8)
- ii) classification and provisioning against non-performing loans and advances (notes 4.5 and 9)
- iii) income taxes (notes 4.13 and 33)
- iv) accounting for defined benefit plan and compensated absences (notes 4.10 and 38)
- v) depreciation of operating fixed assets (notes 4.6 and 10)
- vi) amortisation of intangibles (notes 4.6.3 and 11)
- vii) revaluation of fixed assets and non banking assets acquired in satisfaction of claim (note 4.6.2, 4.6.5, 10 and 12.1)
- viii) impairment of assets (note 4.4.5)
- ix) employee stock option scheme (note 40)
- x) fair value measurement of financial instruments (note 42)
- xi) other provisions and contingent liabilities (notes 22 and 32)

#### 3 BASIS OF MEASUREMENT

#### 3.1 Accounting convention

These unconsolidated financial statements have been prepared under the historical cost convention except that certain fixed assets and non banking assets acquired in satisfaction of claims are stated at revalued amounts; held for trading, available for sale investments and derivative financial instruments are measured at fair value and defined benefit obligation which are carried at present value.

# 3.2 Functional and Presentation Currency

These unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.

The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

# 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these unconsolidated financial statements are consistent with those of previous financial year except as disclosed below in note 4.1.

#### 4.1 Changes in accounting policies

# 4.1.1 Change in reporting format

The SBP vide BPRD Circular No.2 dated January 25, 2018 specified the new reporting format for the financial statements of banking companies. The new format has revised the disclosure requirements of the Bank for the year ended December 31, 2018 which has resulted in certain additional disclosures and reclassifications of the items in these unconsolidated financial statements.

# 4.1.2 Surplus / Deficit on Revaluation of Fixed Assets

The Companies Ordinance, 1984 (the repealed Ordinance) was repealed through the enactment of the Companies Act, 2017 on May 30, 2017. However, as directed by the Securities and Exchange Commission of Pakistan vide circular number 23 dated October 4, 2017, the financial reporting requirements of the Companies Act, 2017 were only made applicable for reporting periods starting from January 1, 2018.

The repealed Ordinance specified the accounting treatment for the surplus on revaluation on fixed assets, wherein, a deficit arising on revaluation of a particular property was to be adjusted against the total balance in the surplus account or, if no surplus existed, was to be charged to the profit and loss account as an impairment of the asset. However, the Companies Act, 2017 removed the specific provisions allowing the above treatment and hence, a deficit arising on revaluation of a particular property is now to be accounted for in accordance with IAS 16, which requires that such deficit is to be taken to the profit and loss account as an impairment.

MY

Consequently, the Bank has changed its policy for accounting for a deficit arising on revaluation of fixed assets and accordingly, any surplus/deficit arising on revaluation of owned property and non-banking assets acquired in satisfaction of claims is accounted for at individual assets level. The effect of this change in accounting policy, which is applied with retrospective effect, is as follows: December 31, 2016 (Rupees in '000) Impact over statement of financial position Decrease in unappropriated profit 30,137 Increase in surplus on revaluation of assets - net of tax . 30,137 Impact over profit and loss account, statement of comprehensive income and statement of cash flows is immaterial. Adoption of IFRS 9 - 'Financial Instrument' 4.1.3 During the current year, the Bank's Bahrain, Afghanistan and UAE Operations have, in line with their respective locally applicable regulatory frameworks, adopted IFRS 9 'Financial Instruments' as issued by the International Accounting Standards Board (IASB) in July 2014. In order to ensure compliance with the regulatory framework in these countries, the expected credit loss charge arising as a result of adoption of IFRS 9 has been retained as a general provision in these unconsolidated financial statements. As permitted by the transitional provisions of IFRS 9, the Bank elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings and other reserves of the current period. The adoption of this standard by the overseas branches have resulted in additional net of tax provisioning requirement of Rs. 81.596 million in respect of prior year which has been incorporated in the opening balance of retained earnings, while net of tax provision reversal of Rs. 63.820 million has been booked in profit and loss statement of overseas operations, in respect of current period.

Had IFRS 9 not been adopted by the overseas branches, unappropriated profit, investments, advances, other assets and deferred tax liabilities as at December 31, 2018 would have been higher by Rs. 17.776 million, Rs. 19.264 million, Rs. 0.568 million, Rs. 4.891 million and Rs. 6.947 million, respectively.

# Measurement of Redeemable Participating Certificates - IFRS 9

During the current year, the adoption of IFRS 9 at Bahrain Operations of the Bank has resulted in investments in Redeemable Participating Certificates held abroad, being mandatorily measured at "Fair Value through Profit and Loss Account". However, based on the clarification received from the State Bank of Pakistan (SBP) vide their letter No. BPRD/RPD/2018-16203 dated July 26, 2018, such investments have been reported and measured under "Available for Sale" investments in these unconsolidated financial statements.

# Cash and cash equivalents

Cash and cash equivalents comprise of cash in hand, balances with treasury banks, balances with other banks in current and deposit accounts, national prize bonds, any overdrawn nostro accounts and call lendings having maturity of three months or

# Lendings to / borrowings from financial institutions

The Bank enters into transactions of repurchase agreements (repo) and agreements to resell (reverse repo) at contracted rates for a specified period of time. These are recorded as under:

# Sale under repurchase agreements

Securities sold subject to a repurchase agreement (repo) are retained in these unconsolidated financial statements as investments and the counter party liability is included in borrowings. The difference between the sale and contracted repurchase price is accrued on a time proportion basis over the period of the contract and recorded as an expense.

# Purchase under resale agreements

Securities purchased under agreement to resell (reverse repo) are not recognised in these unconsolidated financial statements as investments and the amount extended to the counter party is included in lendings. The difference between the purchase and contracted resale price is accrued on a time proportion basis over the period of the contract and recorded as in m

#### 4.4 Investments

#### 4.4.1 Classification

The Bank classifies its investments as follows:

#### Held for trading

These are investments, which are either acquired for generating profits from short-term fluctuations in market prices, interest rate movements, dealers' margin or are securities included in a portfolio in which a pattern of short-term profit taking exists.

#### Held to maturity

These are investments with fixed or determinable payments and fixed maturities and the Bank has the positive intent and ability to hold them till maturity.

#### Available for sale

These are investments, other than those in subsidiaries and associates, which do not fall under the 'held for trading' and 'held to maturity' categories.

#### **Associates**

Associates are all entities over which the Bank has significant influence but not control. Investment in associates is carried at cost less accumulated impairment losses, if any.

#### Subsidiaries

Subsidiary is an entity over which the Bank has control. Investment in subsidiary is carried at cost less accumulated impairment losses, if any.

#### 4.4.2 Regular way contracts

All purchases and sales of investments that require delivery within the time frame established by regulation or market convention are recognised at trade date, which is the date at which the Bank commits to purchase or sell the investments.

#### 4.4.3 Initial recognition and measurement

Investments are initially recognised at fair value. Transaction costs associated with investments other than held for trading securities are included in cost of investments. Transaction costs on held for trading securities are expensed in the profit and loss account.

## 4.4.4 Subsequent measurement

In accordance with the requirements of State Bank of Pakistan, quoted securities other than those classified as 'held to maturity', investment in associates and subsidiaries are subsequently remeasured to market value. Surplus and deficit arising on revaluation of securities classified as 'available for sale' is taken to a separate account shown in the statement of financial position below equity. Surplus / (deficit) arising on revaluation of investments classified as 'held for trading' is taken to the profit and loss account. Investments classified as 'held to maturity' are carried at amortised cost.

Unquoted equity securities, excluding investment in subsidiaries and associates are valued at lower of cost and the breakup value. Break-up value of equity securities is calculated with reference to the net assets of the investee company as per the latest available audited financial statements. Investment in subsidiaries and associates are carried at cost, less accumulated impairment losses, if any.

#### 4.4.5 Impairment

Impairment loss in respect of equity securities classified as available for sale, subsidiaries and associates and held to maturity is recognised based on management's assessment of objective evidence of impairment as a result of one or more events that may have an impact on the estimated future cash flows of the investments. A significant or prolonged decline in fair value of an equity investment below its cost is also considered an objective evidence of impairment. Provision for diminution in the value of debt securities is made as per the Prudential Regulations issued by the State Bank of Pakistan. In case of impairment of available for sale securities, the cumulative loss that has been recognised directly in surplus / (deficit) on revaluation of securities is transferred from equity and recognised in the profit and loss account. For investments classified as held to maturity and investment in subsidiaries and associates, the impairment loss is recognised in the profit and loss account.

Gains or losses on disposal of investments during the year are taken to the profit and loss account.

WIT

#### 4.5 Advances

#### Loans and advances

Loans and advances including net investment in finance lease are stated net of provision against non-performing advances. Specific and general provisions against toans and advances in Pakistan operations are made in accordance with the requirements of the Prudential Regulations issued by the State Bank of Pakistan from time to time. The net provision made / reversed during the year is charged to profit and loss account and accumulated provision is netted-off against advances. Provisions pertaining to overseas loans and advances are made in accordance with the requirements of regulatory authorities of the respective countries. Advances are written off when there are no realistic prospects of recovery.

# Islamic Financing and Related Assets

The Bank provides Islamic financing and related assets mainly through Murabaha, Ijarah, Diminishing Musharakah, Musharakah, Running Musharakah, Salam, Istisna, Tijara and Export Refinance under SBP Islamic Export Refinance Scheme. The purchases and sales arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of profit thereon. The income on such financings is recognised in accordance with the principles of Islamic Shariah. The Bank determines specific and general provisions against Islamic financing and related assets on a prudent basis in accordance with the requirements of the Prudential Regulations issued by the SBP. The net provision made / reversed during the year is charged to profit and loss account and accumulated provision is netted-off against Islamic financing and related assets. Islamic financing and related assets are written off when there are no realistic prospects of recovery.

#### Finance Lease Receivables

Leases where the Bank transfers substantially all the risks and rewards incidental to the ownership of an asset are classified as finance leases. A receivable is recognised on commencement of lease term at an amount equal to the present value of the minimum lease payments, including guaranteed residual value, if any. Unearned finance income is recognised over the term of the lease, so as to produce a constant periodic return on the outstanding net investment in lease. The Bank determines specific provisions against investment in finance lease on a prudent basis in accordance with the requirements of the Prudential Regulations issued by the SBP. The net provision made / reversed during the year is charged to profit and loss account and accumulated provision is netted off against net investment in finance lease. The assets are written off when there are no realistic prospects of recovery.

## 4.5.1 Ijarah Assets (IFAS 2)

Ijarah assets are stated at cost less depreciation and are disclosed as part of 'Islamic financing and related assets'. The rental received/ receivable on Ijarah under IFAS 2 are recorded as income / revenue. The Bank charges depreciation from the date of recognition of Ijarah of respective assets to Mustajir. Ijarah assets are depreciated over the period of Ijarah using the straight line method. Impairment of Ijarah rentals are determined in accordance with the Prudential Regulations of SBP. The provision for impairment of Ijarah Rentals is shown as part of 'Islamic financing and related assets'.

#### 4.6 Fixed assets and depreciation

#### 4.6.1 Capital work in progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under this head. (These are transferred to specific assets as and when assets become available for use).

## 4.6.2 Property and Equipment (owned and leased)

Property and equipment are shown at historical cost less accumulated depreciation and accumulated impairment losses, if any, except land and buildings which are carried at revalued amount less accumulated depreciation and impairment losses, if any. Historical cost includes expenditures that are directly attributable to the acquisition of the items.

Depreciation is charged by applying the straight-line method using the rates specified in note 10.2 to these unconsolidated financial statements. The depreciation charge for the year is calculated after taking into account residual value, if any. The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at each reporting date. Depreciation on additions is charged from the date on which the assets are available for use and ceases on the date on which they are disposed off.

Maintenance and normal repairs are charged to income as and when incurred. Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably.

Land and buildings are revalued by professionally qualified valuers every three years to ensure that the net carrying amount does not differ materially from their fair value. M

A revaluation surplus is recorded in OC! and credited to the surplus on revaluation of fixed asset in equity. However, to the extent that it reverses a revaluation deficit of the same asset previously recognised in profit or loss, the increase is recognised in profit and loss. A revaluation deficit is recognised in the statement of profit or loss, except to the extent that it offsets an existing surplus on the same asset recognised in the asset revaluation surplus. A transfer from the asset revaluation surplus to retained earnings is made for the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Additionally, accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposal of property and equipment are taken to the profit and loss account except that the related surplus / deficit on revaluation of operating fixed assets (net of deferred taxation) is transferred directly to unappropriated profit.

### 4.6.3 Intangible assets

Intangible assets having a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Such intangible assets are amortised using the straight-line method over their estimated useful lives. The useful lives and amortisation method are reviewed and adjusted, if appropriate at each reporting date. Intangible assets having an indefinite useful life are stated at acquisition cost, less impairment loss, if any. Intangible assets are assessed for impairment, if any, as described under note 4.14.

#### 4.6.4 Goodwill

Goodwill is measured at cost less accumulated impairment losses, if any. Goodwill is tested for impairment annually or whenever there is an indication of impairment, as per the requirement of IAS 36, Impairment of Assets. An impairment charge in respect of goodwill is recognized through the profit and loss account.

# 4.6.5 Non-banking assets acquired in satisfaction of claim

Non-banking assets acquired in satisfaction of claims are stated at revalued amounts less accumulated depreciation thereon. The valuation of properties acquired under this head is conducted regularly, so as to ensure that their net carrying value does not materially differ from their fair value. Any surplus arising on revaluation of such properties is transferred to the surplus on revaluation of non-banking assets in other comprehensive income, while any deficit arising on revaluation is charged to profit and loss account directly. In addition, all direct costs, including legal fees and transfer costs linked with transferring the title of the property to bank is accounted as an expense in the profit and loss account.

# 4.7 Non-current assets held for sale and discontinued operations

The Bank classifies a non-current asset (or disposal group) as held for sale if it represents a separate major line of business or a geographical area of operations or is a subsidiary acquired exclusively with a view to resale; and its carrying amount will be recovered principally through a sale transaction rather than through continuing use.

A non-current asset (or disposal group) held for sale is carried at the lower of its carrying amount and the fair value less costs to sell. Impairment losses are recognised through the profit and loss account for any initial or subsequent write down of the non-current asset (or disposal group) to fair value less costs to sell. Subsequent gains in fair value less costs to sell are recognised to the extent they do not exceed the cumulative impairment losses previously recorded. A non-current asset is not depreciated white classified as held for sale or while part of a disposal group classified as held for sale.

Resultantly, all assets and liabilities of assets held for sale are presented as separate line items on statement of financial position. The post tax results of such operations are presented separately in the profit and loss account.

### 4.8 Borrowings / Deposits and their cost

- Borrowings / deposits are recorded at the proceeds received.
- b) Borrowing costs are recognised as an expense in the period in which these are incurred using effective mark-up / interest rate method to the extent that they are not directly attributable to the acquisition of or construction of qualifying assets. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (one that takes a substantial period of time to get ready for use or sale) are capitalised as part of the cost of that asset.

MH

### 4.8.1 Deposits - Islamic Banking

Deposits are generated on the basis of two modes i.e. Qard and Modaraba.

Deposits taken on Qard basis are classified as 'Current Account' and Deposits generated on Modaraba basis are classified as 'Savings Account' and 'Fixed Deposit Accounts'.

No profit or loss is passed on to current account depositors.

Profits realised in investment pools are distributed in pre-agreed profit sharing ratio.

Rab-ul-Maal (Customer) share is distributed among depositors according to weightages assigned at the inception of profit calculation period.

Mudarib (Bank) can distribute its share of profit to Rab-ul-Maal upto a specified percentage of its profit.

Profits are distributed from the pool so the depositors (remunerative) only bear the risk of assets in the pool during the profit calculation period.

Asset pools are created at the Bank's discretion and the Bank can add, amend, transfer an asset to any other pool in the interests of the deposit holders.

In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of Investments.

### 4.9 Subordinated loans

Subordinated loans are initially recorded at the amount of proceeds received. Mark-up accrued on subordinated loans is recognised separately as part of other liabilities and is charged to the profit and loss account over the period on an accrual basis.

### 4.10 Staff retirement / Employee benefits

### a) Defined benefit plan

The Bank operates an approved funded gratuity scheme, administered by the trustees, covering eligible employees whose period of employment with Bank is five years or more. Contributions to the fund are made on the basis of actuarial recommendations. Projected Unit Credit Method is used for the actuarial valuation. Actuarial gains and losses are recognised immediately in other comprehensive income.

### b) Defined contribution plan

The Bank operates an approved provident fund scheme for all its regular permanent employees, administered by the Trustees. Equal monthly contributions are made both by the Bank and its employees to the fund at the rate of 8.33% of the basic salary in accordance with the terms of the scheme.

#### c) Compensated absences

The Bank recognises the liability for compensated absences in respect of employees in the period in which these are earned up to the balance sheet date. The provision has been recognised on the basis of actuarial recommendations.

### d) Employees Stock Option Scheme

The Bank has granted share options to its employees under the Bank's Employee Stock Options Scheme (ESOS), as approved by the shareholders and SECP. Under the scheme, the employees can subscribe to new ordinary shares for which options have been granted to them under the scheme upto the period of 2019. As per the scheme the entitlements and excercise price are subject to adjustments because of issuance of right shares and bonus issues.

The grant date fair value of equity settled share based payments to employees, determined as option discount as allowed by Public Companies (Employee Stock Option Scheme) Rules 2001, is recognized as employee compensation expense on a straight line basis over the vesting period with a consequent credit to equity as employee stock option compensation reserve. The deferred employee stock option cost is shown as a deduction from employee stock option compensation reserve. Option discount means the excess of market price of the share at the date of grant of an option under a Scheme over exercise price of the option.

When an unvested option lapses by virtue of an employee not conforming to the vesting conditions after recognition of an employee compensation expense in the profit and loss account, such employee compensation expense is reversed in the profit and loss account equal to the amortized portion with a corresponding effect to employee stock option compensation reserve equal to the un amortized portion.

When a vested option lapses on expiry of the exercise period, employee compensation expense already recognized in the profit or loss is reversed with a corresponding reduction to employee stock option compensation reserve.

MY

### 4.11 Foreign currencies

### 4.11.1 Functional and presentation currency

Items included in the unconsolidated financial statements are measured using the currency of the primary economic environment in which the Bank operates.

#### 4.11.2 Transactions and balances

Transactions in foreign currencies are translated into Pakistani rupees at the exchange rates prevailing on the transaction date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss account.

Forward contracts relating to foreign currency deposits are valued at forward rates applicable to the respective maturities of the relevant foreign exchange contract. The forward cover received / paid on forward purchase contracts relating to foreign currency deposits are realised / charged directly to profit and loss account.

### 4.11.3 Foreign operations

Assets and liabilities of foreign operations are translated into rupees at the exchange rate prevailing at the reporting date. The results of foreign operations are translated at average rate of exchange for the year.

### 4.11.4 Translation gains and losses

Translation gains and losses arising on revaluations of net investment in foreign operations are taken to Exchange Translation Reserve in the statement of comprehensive income. These are recognised in the profit and loss account on disposal.

#### 4.11.5 Commitments

Commitments for outstanding forward foreign exchange contracts are disclosed at contracted rates. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the exchange rates ruling on the reporting date.

#### 4.12 Revenue recognition

Revenue is recognised to the extent that the economic benefits associated with a transaction will flow to the Bank and the revenue can be reliably measured.

### 4.12.1 Advances and investments

Income on performing advances and debt securities is recognized on a time proportion basis as per the terms of the contract. Where debt securities are purchased at a premium or discount, such premium / discount is amortised through the profit and loss account over the remaining maturity of the debt security using the effective yield method.

Income recoverable on classified advances and investments is recognized on a receipt basis. Income on rescheduled / restructured advances and investments is recognized as permitted by SBP regulations or by the regulatory authorities of the countries where the Bank operates.

Murabaha income is recognised on deferred income basis.

### 4.12.2 Lease financing

Income from lease financing is accounted for using the financing method. Under this method, the unearned lease income (defined as the sum of total lease rentals and estimated residual value less the cost of the leased assets) is deferred and taken to income over the term of the lease so as to produce a constant periodic rate of return on the outstanding net investment in the lease. Gains or losses on termination of lease contracts are recognised as income when these are realised. Unrealised lease income and other fees on classified leases are recognised on a receipt basis.

ljarah income is recognised on an accrual basis as and when the rentals becomes due.

### 4.12.3 Non Markup / interest income

Fee, commission and brokerage income are accounted for on receipt basis.

Dividend income is recognised at the time when the Bank's right to receive the dividend has been established.

Other income is recognised on accrual basis.

#### 4.13 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the profit and loss account except to the extent that it relates to items recognised directly in other comprehensive income in which case it is recognised in statement of comprehensive income.

#### 4.13.1 Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into consideration available tax credit and rebate, if any. The charge for current tax also includes adjustments, where considered necessary relating to prior years, which arises from assessments / developments during the year.

### 4.13.2 Deferred

Deferred tax is recognised using the balance sheet liability method on all temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for the taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the reporting date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available and the credits can be utilised. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realised.

Deferred tax liability is not recognised in respect of taxable temporary differences associated with exchange translation reserves of foreign branches, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

#### 4.14 Impairment

The carrying amount of assets is reviewed at each reporting date to determine whether there is any indication of impairment of any asset or group of assets, if any such indication exists, the recoverable amount of such assets is estimated and impairment losses are recognised immediately in the unconsolidated financial statements. The resulting impairment loss is taken to the profit and loss account except for impairment loss on revalued assets, which is adjusted against related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of that asset.

### 4.15 Provision for claims under guarantees

Provision for guarantee claims and other off balance sheet obligations is recognised when intimated and reasonable certainty exists for the Bank to settle the obligation. Expected recoveries are recognised by debiting the customer's account. Charge to the profit and loss account is stated net-of expected recoveries.

#### 4.16 Other Provisions

Other provisions are recognised when the Bank has a present, legal or constructive, obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

### 4.17 Contingent Liabilities

Contingent liabilities are not recognised in the statement of financial position as they are possible obligations where it has yet to be confirmed whether a liability, which will ultimately result in an outflow of economic benefits, will arise. If the probability of an outflow of economic resources under contingent liability is considered remote, it is not disclosed.

### 4.18 Off-setting

Financial assets and financial liabilities are off-set and the net amount reported in the unconsolidated financial statements only when there is a legally enforceable right to set-off the recognised amount and the Bank intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously. Income and expense items of such assets and liabilities are also off-set and the net amount is reported in the financial statements.

### 4.19 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date at which the derivative contract is entered into and subsequently remeasured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets where fair value is positive and as liabilities where fair value is negative. Any changes in the fair value of derivative financial instruments are taken to the profit and loss account.

#### 4.20 Acceptances

Acceptances comprise undertakings by the Bank to pay bills of exchange drawn on customers. The Bank expects most acceptances to be simultaneously settled with the reimbursement from the customers. Acceptances are accounted for as on balance sheet transactions.

### 4.21 Dividend and appropriation to reserves

Dividend and appropriation to reserves after the reporting date, except appropriations which are required under the law, are recognised in the Bank's unconsolidated financial statements in the year in which these are approved.

### 4.22 Earnings per share

The Bank presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

### 4.23 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting structure of the Bank. Segmented performance is reported to the senior management of the Bank on monthly basis for the purpose of strategic decision making and performance management.

## 4.23.1 Business segments

#### Retail banking

This includes loans, deposits, trading activity, wealth management and other banking transactions with retail, individual customers, commercial and small and middle sized customers of the Bank. Product suite offered to individual customers includes credit cards, auto loans, housing finance and personal loans.

#### Corporate banking

This comprises of loans, deposits, project financing, trade financing, investment banking and other banking activities with Bank's corporate and public sector customers.

### Treasury

This segment includes liquidity management activities carried out through borrowing, lending, money market, capital market and merchant banking operations. The investments of the Bank primarily towards government securities and risk management activities via use of forward contracts & derivatives are reported here.

#### Digital banking

This segment includes branchless banking accounts, deposits and lending products, digital channels (including ATMs, internet banking, call centre and alfa app), corporate, G2P & SMME portfolio (including EOBI, BISP, payroll solutions), digital payments and digital products.

#### Islamic banking

This segment pertains to full scale Islamic Banking operations of the Bank.

# International operations

This segment includes amounts related to Bank's overseas operations, namely, commercial banking activities in Bangladesh, Afghanistan, United Arab Emirates and wholesale banking actives in the Kingdom of Bahrain.

### Others

This includes the head office related activities, and all other activities not tagged to the segments above.

### 4.23.2 Geographical segments

The Bank operates in three geographical regions being:

- Pakistan
- Asia Pacific (including South Asia)
- Middle East

1 The properties of the Bank have been revalued by independent professional valuers as at December 31, 2018. The revaluation was carried out by M/s. Akbani & Javed Associates, M/s. Harvester Services (Private) Limited and M/s.Hamid Mukhtar & Co. (Private) Limited on the basis of professional assessment of present equity and the deficit has been charged to the profit and loss account.

Had there been no revaluation, the carrying amount of the revalued assets at December 31, 2018 would have been Rs. 5,443.968 million (2017; Rs. 5,742.060 million).

### 21 ASSETS HELD FOR SALE

21.1 During 2017, the Board of Directors of the Bank accorded its in-principle approval and authorised the management of the Bank to explore the possibility to sell the Afghanistan Operations of the Bank to a potential buyer, subject to obtaining all regulatory approvals, compliance with applicable laws and regulations in the matter.

During the current year, the Bank signed a Business Transfer Agreement with a potential buyer for the sale of the Afghanistan operations and subsequently an application for approval of the transaction was made to the DA Afghanistan Bank (DAB), the Central Bank in Afghanistan. The DAB has raised some queries on the application which the Bank and the potential buyers are in the process of responding.

Resultantly, all assets and liabilities and income and expenses for the Bank's Afghanistan Operations are being presented as separate line items on the balance sheet as Non-Current Assets and Liabilities Held for Sale and profit after tax from discontinuing operations respectively, rather than as part of actual line items under which they were being reported historically.

21.2 The financial position and results of assets classified as held for sale are as follows:

#### 23 **DERIVATIVE INSTRUMENTS**

Derivatives are a type of financial contract, the value of which is determined by reference to one or more underlying assets or indices. The major categories of such contracts include futures, swaps and options. Derivatives also include structured financial products that have one or more characteristics of forwards, futures, swaps and options.

- 29.1.1 The Bank operates a short term employee benefit scheme which includes cash awards/ performance bonus for all eligible employees. Under this scheme, the bonus for all executives, including the CEO is determined on the basis of employees' evaluation and Bank's performance during the year. The aggregate amount determined for the eligible employees in respect of the above scheme relating to the Key Management Personnel of the Bank and for Other Executives amounted to Rs. 239.49 million (2017; Rs. 260.190 million) and Rs. 482.278 million (2017; Rs. 369.285 million) respectively.
- 29.1.2 This includes exgratia payment made to the outgoing CEO in 2017.
- 29.2 Total cost for the year included in Other Operating Expenses relating to outsourced activities is Rs 636.858 million (2017: Rs 653.673 million) pertaining to the payment to companies incorporated in Pakistan. This includes payments other than outsourced services costs, which are disclosed above.

### 30 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Supreme Court.

The Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Supreme Court of Pakistan.

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

### 38.14 Funding Policy

The bank's policy for funding the staff retirement benefit schemes, is given in note 4.9 (a).

#### 38.15 Risks Associated with Defined Benefit Plans

#### **Asset Volatility**

The risk arises due to the inclusion of the risky assets in the pension/gratuity fund portfolio, inflation and interest rate volatility.

#### Changes in Bond yields

The risk arises when bond yield is lower than the expected return on the plan assets (duration based PIB discount rate),

#### Inflation Risks

The risk arises if pension/gratuity benefits are linked to inflation and the inflation is higher or higher than expected, which results in higher liabilities

#### Life expectancy / Withdrawai Risk:

The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit obligation. The movement of the liability can go either way.

### Longevity Risks:

The risk arises when the actual lifetime of retirees is longer than expectation. This risk is measured at the plan level over the entire retiree population.

#### Salary Increase Risk:

39

The most common type of retirement benefit is one where the benefit is linked with final salary. The risk arises when the actual increases are higher than expectation and impacts the liability accordingly.

#### DEFINED CONTRIBUTION PLAN

The Bank operates an approved provident fund scheme for all its permanent employees to which both the Bank and employees contribute @ 8.33% of basic salary in equal monthly contributions.

During the year, the Bank contributed Rs. 309.371 million (2017: Rs. 307.135 million) in respect of this fund.

#### 40 EMPLOYEES STOCK OPTION SCHEME

The Bank has granted share options to certain critical employees, (the "employees") under the Employee Stock Options Scheme (ESOS) as approved by the shareholders and Securities and Exchange Commission of Pakistan (SECP) vide its letter no. SMD/CIW/ESOS/02/2013 dated December 27, 2013.

Under the Scheme, the Bank has granted options to these employees (as selected by the Board Compensation Committee, specifically formulated as required under the Public Companies (Employees Stock Option Scheme) Rules, 2001) to subscribe for fresh ordinary shares of the Bank (being issuance of further capital without issue of rights) in the years 2014, 2015 and 2016. No fresh grants were made after the year 2016. However, due to a bonus issue of 10% in October 2018, all employees having exercisable options outstanding were entitled to additional Shares worked out in accordance with the provisions of the scheme. The revised option entitlement and the revised option price have been disclosed below.

Under the scheme, the options entitle the selected employees to purchase shares at 40% discount (the Option Discount), of the market price prevailing at the date of the grant. As per the Scheme, the entitlements and exercise price are subject to adjustments because of issue of right shares and bonus shares. The options carry neither right to dividends nor voting rights till shares are issued to employees on exercise of options.

Details of share options granted under the scheme together with the status as at December 31, 2018 are as follows:

	•	Granted in the year 2016	Granted in the year 2015 (In '000)	Granted in the year 2014
Option issued		13,737	12.614	11,331
Option no longer in issue		4,199	3,294	1,732
Options vested		3,113	2,407	N/A
Options exercised		3,058	2,428	N/A
Options available for exercise		2,405	•	-
Exercise price per share	Rs.	14.95	15.15	16.32
Adjusted exercise per share for final tranche of year 2016	Rs.	13.59	N/A	N/A
Option discount per share	Rs.	9.96	10.10	10.88

-						
Number of persons	1	2	9	6	541	1,973

- 41.1 The Chief Executive and certain Executives have been provided with the free use of cars and household equipment as per Bank's policy.
- 41.2 All executives, including the CEO are entitled to certain short term employee benefits which are disclosed in note 29.1.1 to these financial statements. In addition, the Bank also granted share options to certain key employees of the Bank in the year 2014, 2015 and 2016, which shall vest till the year 2019 refer note 39 and Annexure on Employee Stock Option Scheme.
- 41.3 The count for Executives has been reduced from 1,973 in 2017 to 541 in 2018 due to a change in definition of the Executives. Earlier, any employee having an annual basic salary of Rs. 0.5 million or above was defined as an Executive. This threshold has now been increased to Rs. 1.2 million.

### 42 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

#### 42.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 42.2 Certain categories of fixed assets (land and buildings) and non-banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 10 and 12. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of State Bank of Pakistan.
- 42.3 The Bank's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the current period.
- 42.4 Valuation techniques used in determination of fair values:
- (a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar

Item	Valuation approach and input used
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan.
Interest rate swaps	The fair value of interest rate swaps and futures is determined using prices and curves through Bioomberg.
Market Treasury Bills(MTB) / Pakistan Investment Bonds(PIB), and GoP Sukuks (GIS)	The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates
Overseas Government Sukuks, Overseas and Euro Bonds	The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg.
Debt Securities (TFCs) and Sukuk other than Government	Investment in WAPDA Sukuks, debt securities (comprising term finance certificates bonds and any other security issued by a company or a body corporate for the purpose or raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Operating fixed assets and non banking assets acquired in satis	a The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect or changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.

During the year, the Bank has classified Digital Banking as a separate reportable segment in a manner consistent with the internal reporting structure of the Bank. Segmented results are reported to the senior management of the Bank for the purpose of strategic decision making, resources, systems and infrastructure to be allocated to this segment and assess its performance.

Μþ

## 43.2 Segment details with respect to geographical locations

#### GROGRAPHICAL SEGMENT ANALYSIS

Profit & Loss
Net mark-up/return/profit
Inter segment revenue - net
Non mark-up / return / interest Income
Total Income

Segment direct expenses
Inter segment expense allocation
Total expenses
Provisions
Profit before tax - continued operations
Profit before tax - discontinued operations

Balance Sheet
Cash and Bank balances
Investments
Net inter segment lendings
Lendings to financial institutions
Advances - performing

#### 47 RISK MANAGEMENT

The variety of business activities undertaken by the Bank require effective identification, measurement, monitoring, integration and management of different financial and non-financial risks that are constantly evolving as business activities change in response to concurrent internal and external developments. The Board Risk Management Committee (BRMC) is appointed and authorized by the Board of Directors (BOD) to assist in design, regular evaluation and timely updating of the risk management framework of the Bank. The Board has further authorized management committees i.e. Central Management Committee (CMC) and Central Credit Committee (CCC). To supervise risk management activities within their respective scopes. CMC has further established sub-committees such as Assets & Liabilities Committee (ALCO), investment Committee, Information Technology Steering Committee (ITSC), Internal Control & Compliance Committee (ICCC) and Process improvement Committee (PIC).

The risk management framework endeavours to be a comprehensive and evolving guideline to cater to changing business dynamics. The framework includes:

- Clearly defined risk management policies and procedures.
- Well constituted organizational structure, in the form of a separate risk management department, which ensures that individuals responsible for risk approval are independent from risk taking units i.e. Business Units.
- Mechanism for ongoing review of policies and procedures and risk exposures.

The primary objective of this architecture is to inculcate risk management into the organization flows to ensure that risks are accurately identified & assessed, properly documented, approved, and adequately monitored & managed in order to enhance long term earnings and to protect the interests of the Bank's depositors and shareholders.

The Bank's risk management framework has a well-defined organizational structure for effective management of Credit Risk, Market Risk, Liquidity Risk, Operational Risk, IT security Risk, Credit Risk Systems and Environment and Social Risk.

#### 47.1 Credit Risk

Credit risk is the identification of probability that counterparty will cause a financial loss to the Bank due to its inability or unwillingness to meet its contractual obligation. This credit risk arises mainly from both direct lending activities as well as contingent liabilities. Credit risk management processes encompass identification, assessment, measurement, monitoring and control of Bank's exposure to credit risk. The Bank's credit risk management philosophy is based on Bank's overall business strategy / direction as established by the Board. The Bank is committed to the appropriate level of due diligence to ensure that credit risks have been properly analysed, fully disclosed to the approving authorities and appropriately quantified, also ensuring that the credit commitment is appropriately structured, priced (in line with market

The Bank has built and maintained a sound loan portfolio in terms of well-defined credit policy approved by BOD. Its credit evaluation system comprises of well-designed credit appraisal, sanctioning and review procedures for the purpose of emphasizing prudence in fending activities and ensuring the high quality of asset portfolio. In order to have an effective and efficient risk assessment, and to closely align its financing, and overseas operations.

The Bank manages its portfolio of loan assets with a view to limit concentrations in terms of risk quality, industry, maturity and large exposure. Internal rating based portfolio analysis is also conducted on regular basis. This portfolio level oversight is maintained by Credit &

For Domestic operations, Bank determines the amount for Specific & General provisions are held as per the Prudential Regulations issued by the State Bank of Pakistan (SBP). Provisions at overseas branches are held to meet the requirements of regulatory authorities of the respective countries in which overseas branches operates.

A sophisticated internal credit rating system is in place, which is capable of quantifying counter-party & transaction risk in accordance with the best practices. The risk rating system takes into consideration qualitative and quantitative factors of the counter-party, transaction structure & security and generates internal ratings at Obligor and Facility levels. The facility rating system, developed in line with SBP's guidelines, also provides expected LGD (Loss Given Default). This has been implemented in Corporate Banking, Islamic Banking and Retail Banking, Islamic Banking and Retail segments. Furthermore, this system has an integrated loan origination module, which is currently being used in Corporate Banking, Islamic Banking and Retail segments. The system is regularly reviewed for improvements as per SBP's guidelines for Internal Credit Rating and Risk Management. Furthermore, Bank has also automated Internal Rating validation process based on statistical tests for Corporate, Commercial, ME, SE & Agri rating models. It covers both discrimination & calibration statistical tests as per best practices. The system is backed by secured database with backup support and is capable of generating MIS reports providing snapshot of the entire portfolio for strategizing and decision making. The system has been enhanced to compute the risk weighted assets required for supporting submissions.

A centralized Credit Administration Division (CAD) under Credit & Risk Management Group is working towards ensuring that terms of approval of credit sanctions and regulatory stipulations are complied, all documentation including security documentation is regular & fully enforceable and all disbursements of approved facilities are made only after necessary authorization by CAD. Credit Monitoring, under CAD, keeps a watch on the quality of the credit portfolio in terms of borrowers' behaviour, identifies weakening accounts relationships and reports it to the appropriate authority with a view to arrest deterioration.

To handle the specialized requirements of managing delinquent and problem accounts, the Bank has a separate client facing unit to negotiate repayment/ settlement of the Bank's non-performing exposure and protect the interests of the bank's depositors and stakeholders. Unlike other banking groups, where the priority is the maximization of Bank's revenue, the priority of the Special Asset Management Group (SAMG) is recovery of funds and/or to structure an arrangement (such as rescheduling, restructuring, settlement or a combination of these) by which the interests of the Bank are protected. Where no other recourse is possible, SAMG may proceed with legal recourse so as to maximize the recovery of the Bank's assets. The Risk Management Division also monitors the NPL portfolio of the Bank and reports the same to CCC/ BRMC.

#### 47.1.1 Credit Risk - General Disclosures Basel Specific

Bank Alfalah Limited is using Standardized Approach (SA) of SBP Basel accord for the purpose of estimating Credit Risk Weighted Assets. Under SA, banks are allowed to take into consideration external rating(s) of counter-party(s) for the purpose of calculating Risk Weighted Assets. A detailed procedural manual specifying return-based formats, methodologies and processes for deriving Credit Risk Weighted Assets in accordance with the SBP Basel Standardized Approach is in place and firmly adhered to.

# 47.1.2 Disclosures for portfolio subject to the Standardised Approach & Supervisory risk weights

#### 47.1.2.1 External ratings

SBP Basel III guidelines require banks to use ratings assigned by specified External Credit Assessment Institutions (ECAIs) namely PACRA, JCR-VIS, Moodys, Fitch and Standard & Poors.

The State Bank of Pakistan through its letter number BSD/BAI-2/201/1200/2009 dated December 21, 2009 has accorded approval to the Bank for use of ratings assigned by Credit Rating Agency of Bangladesh (CRAB) and CRISL. The Bank uses these ECAIs to rate its exposures denominated in Bangladeshi currency on certain corporate and banks incorporated in Bangladesh.

The Bank uses external ratings for the purposes of computing the risk weights as per the Basel III framework. For exposures with a contractual maturity of less than or equal to one year, short-term rating given by approved Rating Agencies is used, whereas for long-term exposure with maturity of greater than one year, long-term rating is used.

Where there are two ratings available, the lower rating is considered and where there are three or more ratings the second - lowest rating is considered.

# 47.1.3 Disclosures with respect to Credit Risk Mitigation for Standardised Approach

#### 47.1.3.1 Credit risk mitigation policy

The Bank defines collateral as the assets or rights provided to the Bank by the borrower or a third party in order to secure a credit facility. The Bank would have the rights of secured creditor in respect of the assets / contracts offered as security for the obligations of the borrower / obligor.

#### 47.1.3.2 Collateral valuation and management

As stipulated in the SBP Basel II / III guidelines, the Bank uses the comprehensive approach for collateral valuation. Under this approach, the Bank reduces its credit exposure to a counterparty when calculating its capital requirements to the extent of risk mitigation provided by the eligible financial collateral as specified in the Basel III guidelines. In line with Basel II / III guidelines, the Bank makes adjustments in guidelines. These adjustments, also referred to as 'haircuts', to produce volatility adjusted amounts for collateral, are reduced from the exposure to compute the capital charge based on the applicable risk weights.

### 47.1.3.3 Types of collateral taken by the Bank

Bank Alfalah Limited determines the appropriate collateral for each facility based on the type of product and counterparty. In case of corporate and SME financing, fixed assets are generally taken as security for long tenor loans and current assets for working capital finance usually backed by mortgage or hypothecation. For project finance, security of the assets of the borrower and assignment of the underlying project contracts is generally obtained. Additional security such as pledge of shares, cash collateral, TDRs, SSC/DSCs, charge on receivables may also be taken. Moreover, in order to cover the entire exposure Personal Guarantees of Directors / Borrowers are also obtained generally by the Bank. For retail products, the security to be taken is defined in the product policy for the respective products. Housing loans and automobile loans are secured by the security of the property/automobile being financed respectively. The valuation of the properties is carried out by an approved valuation agency.

The Bank also offers products which are primarily based on collateral such as shares, specified securities and pledged commodities. These products are offered in line with the SBP prudential regulations and approved product policies which also deal with types of collateral,

The decision on the type and quantum of collateral for each transaction is taken by the credit approving authority as per the credit approval authorization approved by the Central Credit Committee (CCC) under its delegation powers. For facilities provided as per approved product policies (retail products, loan against shares etc.), collateral is taken in line with the policy.

### 47.1.3.4 Types of eligible financial collateral

For credit risk mitigation purposes (capital adequacy purposes), the Bank considers all types of financial collaterals that are eligible under SBP Basel III accord. This also includes Cash / TDRs, Gold, securities issued by Government of Pakistan such as T-Bills and PiBs, National Savings Certificates, certain debt securities rated by a recognised credit rating agency, mutual fund units where daily Net Asset Value (NAV) is available in public domain and guarantees from certain specified entities (Government of Pakistan, Banks etc.) under substitution effect of Collaterals as mentioned in the SBP Basel III accord.

#### 47.1.3.5 Credit concentration risk

Credit concentration risk arises mainly due to concentration of exposures under various categories viz. industry, geography, and single/group borrower exposures. Within credit portfolio, as a prudential measure aimed at better risk management and avoidance of concentration of risks, the SBP has prescribed regulatory limits on banks' maximum exposure to single borrower and group borrowers. Moreover, in order to restrict the industry concentration risk, Bank's annual credit plan spells out the maximum allowable exposure that it can take on specific industry. Additionally, the Internal Rating System allows the Bank to monitor risk rating concentration of borrowers against different grades / scores ranging from 1 - 12 (1 being the best and 12 being loss category). Concentration in customers that are rated in high risk category is also monitored against the approved appetite set by the management.

Particulars of bank's significant on-balance sheet and off-balance sheet credit risk in various sectors are analysed as follows:

#### 47.1.4 Lendings to financial institutions

Credit risk by public / private sector

Public/ Government Private

#### 47.1.5 <u>Investment in debt securities</u>

Credit risk by industry sector

Agriculture, Forestry, Hunting and Fishing Mining and Quarrying Textile Chemical and Pharmaceuticals Cement Sugar Footwear and Leather garments

#### 47.2 Market Risk

Market risk exposes the Bank to the risk of financial losses resulting from movements in market prices. It is the risk associated with changes in the interest rates, foreign exchange rates, equity prices and commodity prices. To manage and control market risk, a comprehensive Board approved Market & Liquidity Risk Management Policy, is in place. The policy outlines a well-defined risk control structure, responsibilities of relevant stakeholders with respect to market risk management and methods to measure and control market risk carried out at a portfolio level. Moreover, it also includes controls which are applied, where necessary, to individual risk types, to particular books and to specific exposures. These controls include limits on exposure to individual market risk variables as well as limits on concentrations of tenors and issuers. This structure is reviewed, adjusted and approved periodically.

Under the BoD approved policy, the Bank's Asset and Liability Committee (ALCO) and Investment Committee (IC) are primarily responsible for the oversight of the market risk, supported by market risk management Unit of Risk Management Division (RMD). The Bank uses the Standardized Approach to calculate capital charge for market risk as per the current regulatory framework under Basel II / III. Furthermore, the Bank carries out risk assessment via diversified tools including Value at Risk (VaR), PV01 (price value per basis point) and Duration on a regular basis. The Bank also ascertains the impact of market risk on relevant factors through stress testing and Internal Capital Adequacy Assessment processes.

#### 47.3 Foreign exchange risk

Foreign exchange (FX) risk arises from the fluctuation in the value of financial instruments due to the changes in foreign exchange rates. FX risk is mainly managed through matched positions. Unmatched positions are covered substantially through derivative instruments such as forwards and swaps.

The Bank also manages FX risk by setting and monitoring dealer and currency-wise limits. The currency risk is regulated and monitored against the regulatory/statutory limits enforced by the State Bank of Pakistan. The foreign exchange exposure limits in respective currencies are managed against the prescribed limits. Risk Assessment with respect to FX risk is also conducted on a regular basis through VaR

The analysis below represents the concentration of the Bank's foreign currency risk for on and off balance sheet financial instruments:

Currency wise assets and liabilities considered above have been presented on gross basis as per respective currencies.

#### 47.3.2 Equity position Risk

47.3.1

Equity position risk arises due to adverse movements in the prices of equities and instruments exhibiting behaviour similar to equities held by the bank. The Bank's equity investments are classified as Available for Sale (AFS) and Held for Trading (HFT) investments. The objective of investments classified as HFT portfolio is to take advantage of short term capital gains, while the AFS portfolio is maintained with a medium term view of capital gains and dividend income. The Bank's Investment Committee is primarily responsible for the oversight of the equity investment risk. Market Risk Management Unit of RMD monitors and reports portfolio and scrip level internal and external limits.

#### 47.4 Yield / Interest Rate Risk in the Banking Book (IRRBB)-Basel II Specific

Interest Rate Risk is the adverse impact on the bank's shareholder's equity due to changes in the interest rates. It may be further elaborated as changes in the present value of the asset, liabilities and commitments due to changes in the term structure of the interest rates. The Bank is exposed to interest rate risk primarily as a result of mismatches in the amounts of assets, liabilities and off-balance sheet interest sensitive instruments within a certain range of meturity or re-pricing (whichever is earlier). The Bank has formulated a separate interest Rate Risk Management (IRRM) framework which establishes aggregate and tenor-wise balance sheet level PVOT (Price Value of 1bp) limits to manage interest rate risk within the Board approved risk appetite. Treasury and Capital Markets Group is primarily responsible for management of interest rate risk on a daily basis, and the Asset and Liability Committee (ALCO) oversees the interest rate risk at Bank level, Market Risk Department of Risk Management Division independently monitors, analyses and reports various limits including management action point limits and re-pricing of the assets and liabilities on a regular basis.

The increase (decline) in earnings or according to management of the increase used by management) for upward and downward shocks according to managements method for measuring IRRBB, broken down by currencies (if any, and than translated into Rupees)

#### 47.5 Operational Risk

Basel II defines Operational risk as, "the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events." In compliance with the Risk Management Guidelines, issued by SBP, an Operational Risk Management (ORM) Unit is established within RMD.

The Operational risk management policy of the Bank is duly approved by the Board and Operational Risk Management Manual covers the processes, structure and functions of Operational risk management and provides guidelines to identify, assess, monitor, control and report operational risk in a consistent and transparent manner across the Bank.

### 47.5.1 Operational Risk Disclosures - Basel II Specific

Bank Alfalah Limited is among the first few banks to secure SBP approval for adoption of Alternative Standardized Approach (ASA) under Basel II for determining capital charge on Operational Risk in December 2013 and Bank started calculating its capital charge for operational risk on ASA in its financials from December 31, 2013.

The SBP Approval stipulated a capital floor i.e. operational risk charge under ASA should not fall below as a certain percentage of operational risk capital charge calculated under Basic Indicator Approach for initial 3 years. These floors were 90% for 2013 and 2014, 80% for 2015 and 70% for 2016. However, removal of Capital Floor for calculation of Capital Charge under ASA was extended in line with International developments and consultations of the Basel Committee on Banking Supervision (BCBS), State Bank of Pakistan is in process of reviewing its instructions on Operational risk.

The Bank's ORM framework and practices address all the significant areas of ORM within the Bank including Risk Control Self Assessment (RCSA), Key Risk Indicators (KRIs), Operational Loss Data Management, and Operational Risk Reporting. The ORM Unit engages with Bank's business / support units and regularly collaborates in determining and reviewing the risks, and suggests controls on need basis. Additionally, all the policies, procedures and systems of the Bank are reviewed from the operational risk perspective, and the recommendations of RMD are taken into consideration before their approval. A Process Improvement Committee (PIC) in this regard has been formed to evaluate and consider the recommendations of all the reviewers. Further, the unit also reviews functional specification documents (FSDs) and reviews / test the functionalities and systems prepared on premise of the FSD. The Operational Loss Database and KRIs systems are in place which have been further enhanced and the reports are submitted to Central Management Committee and Board Risk Management Committee. State Bank has further extended the timeline for collection of loss data base reports till further notice.

As required by Basel, Bank has categorized all its operational loss/near miss incidents into following loss event categories:

- Internal Fraud
- External Fraud
- Employment Practice & Workplace Safety
- Client, Product & Business Practice
- Damage to Physical Assets
- Business Disruption & System Failure
- Execution, Delivery & Process Management

And also mapped the incidents into following Business Lines:

- Retail Banking
- Commercial Banking
- Corporate Finance
- Trading & Sales
- Payment & Settlement
- Agency Services
- Cost centers/Centralized functions

#### 47.5.2 IT Security Risk

The Bank has in place an IT Security Risk Management Policy and an IT Management Policy, duly approved by the Board of Directors, which derive from the regulatory mandates and the ISO 27001:2013 international standards framework. A dedicated IT Security Risk Management unit, functioning within RMD manages fT and information security risks to bank's technology assets by developing IT security baselines for IT solutions that support products and services, Security solutions selection, and acquisition including vendor and/or service provider selection managed by IT Security in close coordination with ITG and procurement/central administration, monitoring of threats and vulnerabilities though Security Operations Centre( 24/7 ), investigation of reported information security incidents, reinforcement of IT security risk awareness to employees via periodic communications, following up on due dates with stakeholders responsible for remediation of open issues, and reporting the status of IT security risk to the management and Board IT Committee(BITC) /ITSC/Board.

# 47.5.3 Environmental & Social Risk Management Unit

Initiative to integrate sustainable finance approach in credit evaluation and approval process. Being a responsible corporate citizen wherever BAFL operates, the Bank has integrated sustainable finance approach in its lending activities. In this regard, Green Banking Policy and Environmental & Social Management System (ESMS), duly approved by the Board of Directors, has been put in place in

The ESMS Framework essentially requires that any relevant lending opportunity is to be reviewed and evaluated under against:

- IFC Exclusion List
- Applicable national laws on environment, health, safety and social issues
- IFC Performance Standards.

This Framework is an integral part of the credit approval process and all relevant credit proposals require clearance of E&S Officer prior to approval of the competent authority. The Environmental & Social Risk Management Unit, part of RMD and E&S Unit is responsible for identifying, vetting and approving projects from an Environmental & Social Management Risk (ESRM) perspective.

#### 47.5.4 Credit Risk

This unit is primarily responsible for development and management of Credit Risk Systems including Credit Initiation & Internal Rating System (CIIRS) and its related modules like Bank Alfalah CAR Kalculator (BACK). It also supports other credit related automation & optimization initiatives like eCIB automation and Credit Decision engine for Consumer Finance Group as desired by Management from time to time.

#### 47.5.5 Country risk

Country risk, refers to the possibility that economic and political conditions in a foreign country could adversely impact the Bank's exposure in that country. For the Bank, country risk arises as a result of the Bank's foreign currency lending, trade and treasury business with counterparties domiciled in other countries as well as investments and capital transactions. In order to manage the risk, Bank has in place a comprehensive country risk management framework. Under this framework, the transfer risk is measured using financial market and economic factors. Political risk is measured using a variety of indicia indicative of country's willingness to honour its foreign obligations. Based on this framework, risk limits are assigned to countries within the Board approved limits. The limits and their utilization are monitored and managed at head office level and country risk exposures are reported to the relevant committees at a de-fined frequency.

#### 47.6 Liquidity Risk

Liquidity is a financial institution's capacity to meet its obligations as they fall due without incurring losses. Liquidity risk is the risk to an institution's earnings, capital & reputation arising from its inability (real or perceived) to meet its contractual obligations in a timely manner without incurring unacceptable losses when they come due.

With reference to SBP Basel III Liquidity Standards issued under BPRD circular # 08 dated June 23, 2016, Bank Alfalah calculates Liquidity Coverage Ratio (LCR) on monthly basis. Based on December 31, 2018 numbers Bank's LCR is 1.42 or 142% against SBP minimum requirement of 100%, with Total Stock of High Quality Liquid Assets (HQLA) of PKR 281,732.849 million and Net Cash Outflows of PKR 198,337.514 million.

Moreover, under the same circular the Banks are expected to calculate Net Stable Funding Ratio (NSFR) on quarterly basis. Based on December 31, 2018 numbers Bank Alfalah's NSFR is 133% against SBP minimum requirement of 100%, with Total Available Stable Funding of PKR 630,592,999 million and Total Required Stable Funding of PKR 472,759.178 million.

The Bank manages and controls liquidity risk through a detailed risk management framework, which includes BoD approved policy, management level procedural document and Asset & Liability Committee (ALCO) level guidelines. Under this framework, various liquidity metrics are implemented and monitored on a regular basis.

At BAFL, BoD approves the Liquidity Risk Policy. Further, it also approves the Bank's overall liquidity risk appetite and broad liquidity risk strategy through Annual Business Plan. The Bank's ALCO is primarily responsible for the implementation of BoD's strategy through oversight of the asset liability function including liquidity management. Treasury front office manages the Bank's liquidity on day basis and is the Bank's first line of defense against liquidity risk. Under Risk Management Division, Liquidity Risk Management Unit is responsible for independent monitoring of the overall liquidity risk in fine with regulatory requirements and bank's own risk appetite.

The Bank's overall funding strategy is based on the principles of diversification and stability. The Bank has a diverse funding base, which includes stable funding in the form of equity, Sub-ordinated loans, retail and small business deposits. Moreover, for non-stable funding in form of Large Volume Depositors. The Bank has in place internally approved limits to monitor and manage risk emanating from volatile funding concentration. Moreover, the Bank is fully compliant with Basel III LCR and NSFR, which ensure sufficient stock of High Quality Liquidity Assets in relation to its liability profile.

At BAFL, Stress Testing is used in an attempt to highlight the vulnerability of the Bank's Balance Sheet to hypothetical stress events and scenarios. Under the same, liquidity risk factors are given major shocks and their resulting impact on the balance sheet is impacts of different liquidity stress scenarios on the Bank's stock of liquid assets. The results are shared with the senior management, BoD and the regulator.

At BAFL, Contingency Funding Plan, is implemented to address liquidity issues in times of stress / crises situations. The Global Treasury prepares the CFPs for all operations on annual basis for identifying the stress scenarios and the funding plan for such scenarios along with early warning indicators. These plans are reviewed by the Risk Management Division and are approved by the

Main drivers of LCR results are HQLA and Net Cash Outflow. HQLA is defined by the liquidity quality of the Bank's assets and net cash outflow is mainly determined through volatility of the Bank's liability profile. The table below showcases the composition of HQLA as of December 31, 2018.

HQLA*	Market Value	Weighted Amount es in 000)
Level 1 Assets Level 2A Assets	279,406,840 -	279,406,840
Level 2B Assets	<u>4,65</u> 2,019	2,326,009
=	284,058,859	281,732,849

<sup>\*</sup> These have been defined in detail in SBP Circular No. 08, dated June 23, 2016. M W

In line with SBP BSD Circular Letter No. 03 of 2011 on "Maturity and Interest Rate Sensitivity Gap Reporting" the Bank conducted a behavioural study of non-maturity deposits (non-contractual deposits) and performed regression analysis to determine deposit withdrawals and deposits withdrawals in order to arrive at an estimated deposits withdrawals pattern. This methodology is in kine with the LM A.

\*

#### 47.7 Derivative Risk

The Bank currently deals in derivative instruments namely forward exchange contracts, Interest rate swaps and futures with the principle view to hedge risks associated with interest rates and foreign exchange risk.

Interest rate swaps and futures are conducted to hedge interest rate risk present in the Bank's foreign currency bond portfolio. With respect to forward exchange contracts, the bank offers such products to protect customers from adverse movements in foreign currencies. On a best effort basis, the respective positions are then hedged/matched in the interbank market. Open positions, if any, are managed through regulatory and other internal limits that includes Foreign Exchange Exposure Limits and Currency wise NOP Limits.

Market Risk Department under the Risk Management Division performs hedge effectiveness testing of foreign currency bond portfolio against interest rate swaps and futures on a periodic basis. The results are then shared with the concerned stakeholders and strategies are devised/revisited in coordination with Treasury to align the outcomes with established risk

#### NON-ADJUSTING EVENTS AFTER THE REPORTING DATE 48

The Board of Directors in its meeting held on February 21, 2019 has announced cash dividend of 15/2 percent (2017: 10%). This appropriation will be approved in the forthcoming Annual General Meeting. The financial statements for the year ended December 31, 2018 do not include the effect of this appropriation which will be accounted for in the financial statements for the year ending December 31, 2019.

#### 49 DATE OF AUTHORISATION

These unconsolidated financial statements were authorised for issue on February 21, 2019 by the Board of Directors of the

#### 50 GENERAL

Comparative information has been re-classified, re-arranged or additionally incorporated in these financial statements, wherever necessary to facilitate comparison.

### DISCLOSURES PLS POOL MANAGEMENT- ISLAMIC BANKING GROUP (IBG)

A-ft.2 1. The pools, their key features and risk and reward characteristics.

The profit and loss sharing between the Rabbul Maal (depositor) and Mudarib (Bank - IBG) is based upon the underlying principles of Mudaraba, where Bank also contributes its equity to general pool of funds, and becomes the capital provider.

Currently IBG is managing following pools:

- 1) General Pool for LCY Depositors
- 2) FCY Pool for Foreign Currency (USD, GBP and EURO) depositors
- ) Fls Pool for Treasury Purposes
- 4) IERS Pool for Islamic Export Refinance Scheme facilities

2. Avenues/sectors where Muderaha based describe to

- 5) Special pool
- 5) Islamic Banking Afghanistan Operations Pool

All the Mudaraba based Remunerative deposits shall be considered as an investment from Rabbul Maai in the pool, along with IBG's own share of equity, which is also commingled in the pool. The applications of these funds are on Advances, Investments, and Placements for generating profits to be shared among the

The IERS pool is maintained as per the guideline under SBP IERS Scheme.

The assets, flabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

Avenues/sectors where Mudaraba based deposits have been deployed.	December 2018 (Rupees i	December 2017 n '000)

# B # - 2 - 1		

<sup>\*</sup> Mainly invested in GOP ljarah Sukuks.

3. The major components of Profit distribution and charging of the expenses.

iProfit is distributed among the Mudaraba deposits on the basis of underlying principles of weightage mechanism which are announced before the beginning of the concerned period. Only direct attributable expenses such as depreciation on ijarah assets, brokerage, CIB Charges, bad debts write off on advances and loss on and diminution in the value of investments.

4. The Bank managed the following general and specific pools during the year:

General Remunerative Depositor's Pools	Profit rate and weightage announcement period	Profit rate return earned	Profit s		Mudarib share	Profit rate return distributed to remainerative deposits (Savings and fixed)	Percentage of Mudarib share transferred through Hiba	Amount of Mudarib Share transferred through Hiba
