2.2 STATEMENT OF COMPLIANCE

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

29.1

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by Federal Government through the Finance Act, 2008 for the levy of Workers' Welfare Fund (WWF) on banks were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending. A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petitions is decided. Accordingly, the amount charged for Workers' Welfare Fund since 2008 has not been reversed.

35 FAIR VALUE MEASUREMENTS

34

Fair value measurement defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

35.1 Fair value of financial instruments

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 35.2 The Bank's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date of the event or change in circumstances that caused the transfer. There were no transfers between levels 1 and 2 during the current period.
- 35.3 Valuation techniques used in determination of fair values:
- 35.3.1 Fair value of financial assets

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies and listed non government debt securities.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Ijarah Sukuk, GoP Euro Bonds, Overseas Government Sukuks, Overseas Bonds, Term Finance Certificates, and other than Government Sukuk, forward foreign exchange contracts, forward government securities contracts, cross currency swaps and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3 except as disclosed in note 35.3.2.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

35.3.2 Fair value of non-financial assets

Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 15. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of the State Bank of Pakistan.

| Item | Valuation approach and input used |
|------------------------------------|---|
| Market Treasury Bills (MTB) / | The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV |
| | rates. Floating rate PIBs are revalued using PKFRV rates. |
| and GoP Ijarah Sukuk (GIS) | |
| including their forward contracts | |
| | The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of |
| and GoP Euro Bonds | price available on Bloomberg. |
| | Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and |
| other than Government) | any other security issued by a company or a body corporate for the purpose of raising funds in |
| | the form of redeemable capital) are valued on the basis of the rates announced by the Mutual |
| | Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the |
| | Securities and Exchange Commission of Pakistan. |
| Ordinary shares - listed | The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange. |
| Forward foreign exchange | The valuation has been determined by interpolating the FX revaluation rates announced by the |
| contracts | State Bank of Pakistan. |
| Derivative Instruments | Derivatives that are valued using valuation techniques based on market observable inputs are |
| | mainly interest rate swaps and cross currency swaps. The most frequently applied valuation |
| | techniques include forward pricing and swap models using present value calculations. |
| Fixed assets and non banking | The valuation experts used a market based approach to arrive at the fair value of the Bank's |
| assets acquired in satisfaction of | properties. The market approach uses prices and other relevant information generated by |
| claims | market transactions involving identical, comparable or similar properties. These values are |
| | adjusted to reflect the current condition of the properties. The effect of changes in the |
| | unobservable inputs used in the valuations cannot be determined with certainty accordingly a |
| | qualitative disclosure of sensitivity has not been presented in these unconsolidated condensed |
| | interim financial statements. |

- 39.9 PLS Pool Management Islamic Banking Group (IBG)
- 39.9.1 The pools, their key features and risk and reward characteristics.

The profit and loss sharing between the Rabbul Maal (depositor) and Mudarib (Bank - IBG) is based upon the underlying principles of Mudaraba, where Bank also contributes its equity to general pool of funds, and becomes the capital provider.

Currently IBG is managing following pools: 1) General Pool for LCY Depositors 2) FCY Pool for Foreign Currency (USD, GBP, EURO,AED, SAR and CAD) depositors 3) FIs Pool for Treasury Purposes 4) IERS Pool for Islamic Export Refinance Scheme facilities 5) Special pool 6) PMRC Musharikah Pool

All the Mudaraba based remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBG's own share of equity, which is also commingled in the pool. The applications of these funds are on Islamic financing and related assets, investments, and placements for generating profits to be shared among the depositors as per the weightage system.

The IERS pool is maintained as per the guideline under the SBP IERS Scheme.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

2.2 STATEMENT OF COMPLIANCE

These consolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Accounting Standard 34 "Interim Financial Reporting" and International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act 2017;

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred the applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their SRO No. 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS). 2.2.1 Basis of consolidation

A subsidiary is an entity controlled by the Group. Control exists when the Group is exposed, or has rights, to variable returns from its investment with the investee and has the ability to affect those return through its power over the investee.

These consolidated condensed interim financial statements incorporate the financial statements of subsidiary from the date that control commences until the date that control ceases.

Associates are those entities on which the Group has significant influence, but not control, over the financial and operating polices. Associates as well as investment in mutual funds established under trust structure are accounted for using the equity method.

Non-controlling interests are that part of the net results of operations and of net assets of subsidiary which are not owned by the Holding Company. Material intra-group balances and transactions are eliminated.

- 2.2.2 Key financial figures of the Islamic Banking branches are disclosed in note 39 to the unconsolidated condensed interim financial statements.
- 2.2.3 The Holding company believes that there is no significant doubt on the Group company's ability to continue as a going concern. Therefore, the consolidated financial statements have been prepared on a going concern basis.
- 2.3 Standards, interpretations of and amendments to published approved accounting and reporting standards that are effective in the current period:

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Group's accounting periods beginning on or after January 1, 2023 but are considered not to be relevant or do not have any significant effect on the Group's operations and therefore not detailed in these consolidated condensed interim financial statements.

2.4 Standards, interpretations of and amendments to published approved accounting and reporting standards that are not yet effective:

The following standards, amendments and interpretations as notified under the Companies Act, 2017 will be effective for the accounting periods as stated below:

| Standard, Interpretation or Amendment | | Effective date (annual periods beginning on or after) |
|---|-------|---|
| IFRS 9 - 'Financial instruments' IAS 1 - Non current liabilities with covenants (amendments) | 2.4.1 | January 01, 2024 January 01, 2024 |
| IFRS 16 - Sale and leaseback (amendments) | | January 01, 2024 |

The management is in the process of assessing the impact of these amendments on the consolidated condensed interim financial statements of the Group.

2.4.1 IFRS 9 - 'Financial Instruments'

31 WORKERS' WELFARE FUND

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by Federal Government through Finance Act, 2008 for the levy of Workers' Welfare Fund (WWF) on banks were not lawful. The Federal Board of Revenue has filed review petitions against this order, which are currently pending. A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petitions is decided. Accordingly, the amount charged for Workers' Welfare Fund since 2008 has not been reversed.

36 FAIR VALUE MEASUREMENTS

Fair value measurement defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

36.1 Fair value of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 36.2 The Group's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date of the event or change in circumstances that caused the transfer. There were no transfers between levels 1 and 2 during the current period.
- 36.3 Valuation techniques used in determination of fair values:
- 36.3.1 Fair value of financial assets

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies and listed non government debt securities.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Ijarah Sukuk, GoP Euro Bonds, Overseas Government Sukuks, Overseas Bonds, Term Finance Certificates, and other than Government Sukuk, forward foreign exchange contracts, forward government securities contracts, cross currency swaps and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3 except as disclosed in note 36.3.2.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

36.3.2 Fair value of non-financial assets

Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 15. The valuations are conducted by the valuation experts appointed by the Holding Company which are also on the panel of the State Bank of Pakistan.

| Item | Valuation approach and input used |
|--|--|
| Market Treasury Bills (MTB) / Pakistan | The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued |
| Investment Bonds (PIB), and GoP Ijarah Sukuk | using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates. |
| (GIS) including their forward contracts | |
| Overseas Sukuk, Overseas Bonds and GoP Euro | The fair value of Overseas Government Sukuks, and Overseas Bonds are |
| Bonds | valued on the basis of price available on Bloomberg. |
| Debt Securities (TFCs and Sukuk other than Government) | Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body |
| | corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. |
| Ordinary shares - listed | The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange. |
| Forward foreign exchange contracts | The valuation has been determined by interpolating the FX revaluation rates announced by the State Bank of Pakistan. |
| Derivative Instruments | Derivatives that are valued using valuation techniques based on market observable inputs are mainly interest rate swaps and cross currency swaps. The most frequently applied valuation techniques include forward pricing and swap models using present value calculations. |
| Fixed assets and non banking assets acquired in satisfaction of claims | The valuation experts used a market based approach to arrive at the fair value of the Holding Company's properties. The market approach uses prices and other relevant information generated by market transactions involving identical, comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these consolidated condensed interim financial statements. |
